

Dear Friends,

Our sincere thanks to all of you who have helped make the past 66 years so successful. Our commitment to delivering our customers with the very best quality, variety, selection and service has remained strong throughout these years.

We are proud to be starting our **67th season** of serving New Hampshire's Nursery and Landscaping needs. We appreciate your past patronage and look forward to helping you in any capacity we can.

We are expanding our production fields and growing more on site to keep the freight costs down. We will work hard to keep the same work ethic as our founder Leonard "Red" Brochu. We will strive to serve you, our customer, in the same manner he taught us. Here at Brochu Nursery, you will be treated like family as we help you in choosing the right plant, the best design, and provide the highest quality plants, installation or hardscapes for you, our customers.

Our knowledgeable and friendly Garden Center staff is here to provide our customers with their combined expertise and professional experience. From purchasing your nursery stock to planting and providing the proper care, you can count on our staff for expert advice. Please check out our newly expanded website at brochunursery.com. We offer many other services which include: Landscape Designing, Hydroseeding, Sod Installation, Hardscape, Walls, and Walkway installation. We also provide summer and winter maintenance on your property.

Our garden center and landscaping staff has many years of knowledge and professional experience to assist you with all of your planting needs. Here at our seventy-acre nursery, our satisfied clients have found a wide selection of plant material from perennials to large shade trees as well as many hard to find items. We continuously try to carry and grow new plant material for this area in order to give you a greater selection to choose from.

We welcome new customers to come and visit our Nursery. We look forward to the opportunity to be of service to you, whether it is plant material or landscape products to beautify your home. We will continue to do our very best to supply you with top quality plant material at affordable prices.

On behalf of the entire Brochu Family and Staff, we would like to thank you for your patronage and wish you a lucrative 2018!

Len & Leah Brochu

Retail Terms & Conditions

Retail Customers Qualifications

Retail Clients who come into our Sales Yard and are not accompanied by their landscapers will be charged retail prices, even if the landscaper later comes in to pick up the material. If Retail Clients wish to tag their own plants, the landscaper must accompany the customer to ensure commercial prices.

Return Policy

L.A. Brochu, Inc. does not accept returns of plant material. **ALL SALES ARE FINAL**. Material should be inspected by the purchaser at the time of pick-up or delivery.

Digging/Tagging Policy

To tag any material to be dug, a non-refundable deposit of 50% of the plant price is required at the time of tagging. After the material has been dug, it must be picked up within 20 days of notification. If material is not picked up or other arrangements have not been made then the material shall be returned to inventory and the deposit shall be forfeited.

Holding Area Policy

A 50% non-refundable deposit is required to hold any plant material. Any material not picked up within 20 days from original date (or other arrangements have not been made) material shall be returned to inventory and the deposit shall be forfeited.

Guarantee

We want your landscaping to be a success, and we stand behind the excellent quality of our plants. Plants are guaranteed to be true to name and variety and will be replaced, up to the original value. Our guarantee is void on accounts not paid, in full, within thirty days.

Most problems with new plants arise in the first 60 days, therefore;

Plants purchased at the garden center have a **six month** guarantee from date of purchase.

Plants installed by LA Brochu are guaranteed for **one year** from date of installation.

You will receive a **ONE-TIME** replacement plant or merchandise credit equal to your purchase price excluding any labor. All sales are FINAL for any material purchased at a discounted rate or on sale.

While our guarantees are in place, it is your responsibility to follow our Planting and Watering Guidelines (available in the back of this catalog, at the Garden Center, and on our website www.brochunursery.com). It is also your responsibility to contact us at the **FIRST SIGN** of trouble so that we have the opportunity to discuss adjusted care methods that can save your plant. Failure to contact us in a timely fashion may void your warranty.

Retail Terms & Conditions (Continued)

Excluded from the Plants Warranty are as follows:

- Any plant purchased at a discounted rate or on sale.
- Any plant purchased with a warranty merchandise credit.
- Herbaceous perennials, roses, heaths, heathers, sod, annuals,
- Vegetables, and plants planted in containers such as, planters, etc.
- Plants damaged by conditions beyond our control such as improper or delayed planting, insufficient care, extreme weather, insects, disease, animals, etc.
- Plants that have suffered in appearance but are capable of recovering with proper care.
- Plants growing on your property that are transplanted by L. A. Brochu.
- Plants that skip a flowering cycle.

PROTECT YOUR INVESTMENT

Customers who are picking up their plant material must supply their own tarps or truck covers to prevent drying out of plant material. No claims will be considered if nursery stock is transported without adequate protection.

****BOTH GUARANTEES ARE IN EFFECT PROVIDED THAT PROPER MAINTENANCE IS PERFORMED ON THE PLANT MATERIAL. (WATERING, FERTILIZING, PRUNING, ETC.)**

L. A. Brochu reserves the right to waive the "no guarantee" for individual purchases and will assess each case individually.

Payment

CASH ON DELIVERY and all payments shall be made by cash, bank or certified check. We accept Visa, Master Card, American Express and Discover.

Returned Checks

A minimum charge of \$ 30.00 will be charged on all returned checks.

Pricing

The prices in this catalog take effect March 1, 2018 and cancel all previous prices. Prices and availability are subject to change without notice.

Prices are F.O.B.

L. A. Brochu Inc., 121 Commercial Street, Concord, NH 03301

Measurement of plant material

Some shrubs are measured and sold by spread rather than height, as that is their habit of growth. Trees are sold by height or caliper. Caliper = trunk diameter at 6" above the ground.

Any tree that is over 4" caliper is measured at 12" above the ground.

All measurements follow American Standards for Nursery Stock.

Wholesale Customers Qualifications

L.A. Brochu, Inc. will sell only to those in the nursery or landscape trades at wholesale prices. This includes landscapers, landscape architects and designers, arborists, garden centers, municipalities and contractors landscaping their own sites. All wholesale customers must be registered with our sales department before purchasing any products.

Wholesale prices will be given only to wholesale customers. Customers who are not accompanied by the landscapers/designers/architects will be charged retail prices.

Terms

The prices in this catalog take effect March 1, 2018 and cancel all previous prices. Prices and availability are subject to change without notice. Prices are F.O.B. 121 Commercial Street, Concord, NH. We accept cash, Visa, MasterCard, Discover, American Express and company checks. A minimum charge of \$ 30.00 will be charged on all returned checks.

Credit

Companies wishing to establish credit must complete and sign our confidential credit application. Approval is based on previous in-trade credit history, bank references, and previous business with L.A. Brochu, Inc. For customers with established credit, invoices are payable in full 30 days from the date of invoice. A charge of 2 % per month will be added to unpaid balances after 30 days without exception.

Claims

All claims regarding shortages or damages must be reported with 24 hours of receipt of stock. Liability is limited to the original purchaser and the original purchase price.

Return Policy

L.A. Brochu, Inc. does not accept returns of plant material. **ALL SALES ARE FINAL**. Material should be inspected by the purchaser at the time of pick-up or delivery.

Ordering

Orders can be placed by phone, fax or email 24 hours in advance for above ground material. For material that has to be dug, 72 hours notice is required. Please note that digging times may vary due to weather conditions, location of product and how busy we are. Our goal is to get your order together in a quick and professional manner.

Restocking Fee / Deposits

A 15% restocking fee will be charged on all material held and not picked up.

Wholesale Customers Qualifications (Continued)

Digging/Tagging Policy

To tag any material to be dug, a non-refundable deposit of 50% of the plant price is required at the time of tagging. Tagging must be done with an LA Brochu employee accompanying the customer. After the material has been dug, it must be picked up within 20 days.

Holding Area Policy

A 50% non-refundable deposit is required to hold any plant material. Any material not picked up within 20 days from original date shall be returned to inventory and the deposit shall be forfeited.

Guarantee

All plants are guaranteed to be healthy and true to name upon leaving the nursery. There is no warranty as to the productiveness of the stock for problems resulting from transplanting. Claims must be brought to our attention within 48 hours. No claims will be considered on past due accounts or to anyone except the original purchaser. We accept no responsibility for guarantees our wholesale customers give their customers.

Customers who are picking up their plant material must supply their own tarps or truck covers to prevent drying out of plant material. No claims will be considered if nursery stock is transported without adequate protection.

Payment

CASH ON DELIVERY and all payments shall be made by cash, bank or certified check. We accept Visa, Master Card, American Express and Discover.

Returned Checks

A minimum charge of \$ 30.00 will be charged on all returned checks.

Perennials

Perennials are wonderful plants that come back year after year. We carry perennials that give an instant impact to your garden. Perennials are sold in 1-gallon & 2-gallon containers. If you do not see a perennial on the list below, please check with our associates, we can normally locate them for you.

We offer many different varieties in each type of perennials listed below:

Latin Name	Common Name
Achillea	Yarrow
Artemisia	Silver mound
Astilbe	False Spirea
Clematis	Virgins bower
Coreopsis	Tick seed
Delphinium	Larkspur
Echinacea	Coneflower
Geranium	Cranesbill
Hemerocallis	Daylilly
Heuchera	Coral bells
Hibiscus	Rose of Sharon
Hosta	Plantain lily
Iris	Bearded Iris
Jeepers Creepers	Various varieties
Lavendula	Lavender
Leucanthemum	Shasta daisy
Monarda	Bee balm
Nepeta	Cat mint
Peony	Peony garden or Japanese
Perovskia	Russian Sage
Phlox paniculata	Garden Phlox
Phlox subulata	Moss phlox
Rudbeckia	Black eye Susan
Salvia	Sage
Sedum	Stonecrop
Veronica	Speedwell

We carry perennials that are:

Ever-blooming	Highly Fragrant
Wind tolerant	Drought tolerant
For moist soils	Various in heights
Best used in rock gardens	Great groundcovers
Great for seashore locations	Attractive to butterflies/bees
Interesting in foliage appearance	Good for long lasting cut flowers

Needle Leaved Evergreens

Latin Name (Common name)	Mature Height	Hardiness Zone
--------------------------	---------------	----------------

ABIES (Fir)

Abies balsamea (Balsam Fir) 50-75' (2)

Medium to fast growth rate. Dark green needles with two white stomatal bands on the underside. Symmetrically pyramidal growth. Prefers moist, acidic, well drained soils. **Native.**

4-5'	\$ 125.00
5-6'	\$ 150.00
6-7'	\$ 190.00
7-8'	\$ 240.00
8-10'	\$ 325.00
10-12'	\$ 475.00

Abies concolor (White Fir) 30-50' (3)

Slow to medium growth rate. Prefers full sun but will tolerate light shade. Soft blue-green needles. One of the best firs for landscape use. Pyramidal/conical in shape. Spread of 15-30'. Prefers moist, well drained soils.

4-5'	\$ 135.00
5-6'	\$ 160.00
6-7'	\$ 210.00
7-8'	\$ 275.00
8-10'	\$ 375.00
10-12'	\$ 500.00

CHAMAECYPARIS (False Cypress)

Chamaecyparis obtusa (Hinoki Falsecypress) 40-50' (4)

Dark green foliage on spreading branches that have dropping branchlets. Pyramidal shape growing 10-20' wide.

Chamaecyparis obtusa 'Nana Gracilis' 7' (5)

Dwarf, slow growing, dense small tree. Very conical shape with rich green foliage. Excellent choice for a rock garden or container planting. Full sun or part shade. Not wind tolerant and has 3-4' spread.

Chamaecyparis pisifera 'Boulevard' 12-15' (4)

Dense pyramidal shrub that features soft, silvery blue-gray foliage. Slow growing Needs protection from strong winds. Nice specimen plant.

Chamaecyparis pisifera 'Filifera Aurea' (Gold Threadleaf) 8' (5)

Long, threadlike foliage weeps at the tips. Bright lemon-yellow coloration makes this plant really stand out. Mounding habit. Nice specimen plant.

***Sizes and prices vary - Please Inquire.**

JUNIPERUS (Juniper)

Spreading Junipers

	<u>Ht. X Spd.</u>	<u>Zone</u>
Juniperus chinensis 'Daub's Frosted'	2' x 4'	(4)
Appealing two color flower effect from yellow tips contrasting with blue green interior foliage.		
Juniperus chinensis 'Pfitzeriana' (Pfitzer Juniper)	5' x 10'	(4)
A wide spreading shrub up to 5' high and 10' wide. Blue-green in color. Has approximately 10' spread. Ideal for banks and ground covers.		
Juniperus chinensis 'Pfitzeriana Compacta'	3' x 6'	(4)
Compact form, slightly slower growing and denser habit than 'Pfitzer'.		
Juniperus chinensis 'Sargentii' (Sargent's Juniper)	2' x 9'	(3)
A spreading variety, 18-24" high; blue-green needles. A vigorous, dense grower. Ideal for banks and ground covers. Resistant to juniper blight.		
Juniperus chinensis 'Sea Green' (Sea Green Juniper)	5' x 8'	(4)
Arching branches with bright mint green foliage, spreading to about 8'.		
Juniperus communis 'Green Carpet'	1' x 3'	(5)
Dark green foliage, very hardy and adaptable. Slow grower.		

Low Creeping Junipers

Juniperus horizontalis 'Bar Harbor'	1' x 8'	(3)
A ground-hugging variety, seldom over 1' tall, spreads 6-8'. Blue-green needles turn slightly purple in winter. Salt tolerant. Similar to 'Wiltoni'. Native.		
Juniperus horizontalis 'Blue Carpet'	2-3"x 4-5'	(3)
Rich blue/gray foliage. Softer than blue star. Spreads to 4-5' wide.		
Juniperus horizontalis 'Limeglow'	6-12"x 3'	(3)
Feathery, scale-like, foliage forms a vase-shaped mound. Foliage turns shades of copper-bronze in winter Dwarf, creeping juniper.		
Juniperus horizontalis 'Wiltoni' (Blue Rug Juniper)	6" x 8'	(3)
A very flat, fast growing form with trailing branches, forms a dense mat of blue foliage. The tightest and densest of the many creeping varieties, once it is established. Space 30" on center for use as a ground cover. Best Seller. Native.		
Juniperus horizontalis 'Youngstown'	6-12"x 4-5'	(4)
Densely-branched form with silver-gray foliage that turns purple in winter.		
Juniperus procumbens 'Nana' (Dwarf Japanese Garden Juniper)	12" x 5'	(4)
A dwarf variety forming a compact mat. Slow growing, blue-green in color. It can be wide spreading in time. One of the best. Usually less than 1' in height.		
Juniperus squamata 'Blue Star'	2-3' x 3-4'	(4)
Very compact looking with silver blue foliage. Foliage stays tight throughout growing. Slow grower.		

3 Gal. \$ 40.00
1, 2 & 5 Gallon material priced by variety

JUNIPERUS (Juniper) (Continued)
Upright Junipers

	<u>Ht. X Spd.</u>	<u>Zone</u>
Juniperus chinensis 'Blue Point' Densely branched, broad pyramid form with glowing blue-green foliage. Pyramidal form. Fast growing. Good for borders.	12' x 8'	(4)
Juniperus chinensis 'Hetzi Columnaris' Attractive dark green foliage. Dense, tight growth habit with a vigorous growth rate. Excellent planted as a background or screen.	18' x 5-8'	(4)
Juniperus chinensis 'Mountbatten' A narrow pyramidal evergreen shrub, makes a great accent plant in home landscapes, ideal as a tall hedge; interesting dusty green needle-like foliage and powdery blue berries; a very versatile landscape plant, needs full sun.	15-20' x 15'	(4)
Juniperus chinensis 'Robusta Green' Tufted brilliant green foliage and an informal growth habit make this a good choice.	12' x 7'	(4)
Juniperus scopulorum 'Sky Rocket' The striking, quite narrow columnar form resembles a sky rocket streaking skyward. Compact, tight-branching, displays silvery-blue foliage. Rapid growing accent attains medium height.	15-20' x 3'	(4)
Juniperus scopulorum 'Wichita Blue' Medium size pyramidal grower has broad, fully branched, upright habit. Blue color remains all year.	15' x 6'	(3)
Juniperus virginiana (Eastern Red Cedar) Very tough and hardy small tree that can survive most conditions. Excellent for wildlife cover and screening, or in groupings. Has 8-20' spread. Native.	40' x 20'	(2)

3-4'	\$ 65.00
4-5'	\$ 100.00
5-6'	\$ 135.00
6-7'	\$ 175.00
7-8'	\$ 250.00
8-10'	\$ 300.00

MICROBIOTA (Cypress)

Microbiota decussata 'Celtic Pride' Deep green soft feathery foliage which turns striking bronze in the winter. Drought tolerant, deer resistant. It can be grown in sun or shade.	12" x 8-10'	(2)
Microbiota decussata (Russian Cypress) Low growing evergreen groundcover. Bright green foliage has fine lacy texture with sprays that turn downward. Turns copper to bronze in winter. Very few pests. It can be grown in sun or shade. Very versatile.	18" x 8'	(2)

3 Gallon.....\$ 40.00

PICEA (Spruce)

	<u>Height</u>	<u>Zone</u>
Picea abies 'Gregoryana Parsonsii' (Gregory Parsons)	3-4' x 6-8'	(3)
Dwarf. Thick deep-green needles with brown buds. Irregular shape with open growth habit. Needs full sun.		

6 gallon\$ 75.00

Picea abies (Norway Spruce)	60-80'	(2)
A fast growing, wide, upright spruce with bright green foliage. First class windbreak, and can be sheared to form a hedge. Needs full sun.		

Picea glauca (White Spruce)	40-60'	(2)
Broad, dense becoming tall and narrow. Has 10-20' spread. Does best with moist soils. Withstands wind, heat, cold, drought and crowding. Native.		

Picea pungens (Colorado Spruce)	60'	(2)
Similar in shape to Norway Spruce, slower growing with gray-green needles. Prefers well drained, humus soil. More drought and wind tolerant than other spruces. Best Seller. Native.		

4-5'\$ 120.00	7-8'\$ 250.00
5-6'\$ 150.00	8-10'\$ 350.00
6-7'\$ 200.00	10-12'\$ 475.00

Picea abies 'Nidiformis' (Bird's Nest Spruce)	3' x 8'	(2)
A spreading dense plant. A slow-growing, flat-topped; bright green spruce.		

3 gallon\$ 50.00
 *Larger field grown sizes available.

Picea abies 'Pendula' (Weeping Norway Spruce)	10-15'	(2)
Evergreen tree with weeping branches. A striking specimen.		

4-5'\$ 275.00
5-6'\$ 350.00
6-7'\$ 475.00

Picea glauca 'Conica' (Dwarf Alberta Spruce)	12-15'	(3)
Light green dense foliage, a very slow grower. Maturing at about 15'. Conical in shape. A perfect miniature of a forest tree. Has 3-4' spread. Very popular.		

3 gallon\$ 65.00
3-4'\$ 140.00
4-5'\$ 180.00
5-6'\$ 220.00
6-7'\$ 300.00

PICEA (Spruce) (Continued)

	<u>Height</u>	<u>Zone</u>
Picea glauca 'densata' (Black Hills Spruce)	30-40'	(2)

Slower growing form of white spruce with shorter needles. Grayish green color. Naturally straight leader. Excellent specimen for today's smaller landscapes.

4-5'	\$ 125.00
5-6'	\$ 175.00
6-7'	\$ 250.00
7-8'	\$ 275.00

Picea omorika (Serbian Spruce)	60'	(4)
---------------------------------------	------------	------------

Serbian Spruce forms a narrow, pyramidal silhouette with graceful branching. The upper needle surface is dark green and glossy, contrasting with the white stomatal bands on the lower surface.

4-5'	\$ 120.00
5-6'	\$ 150.00
6-7'	\$ 200.00
7-8'	\$ 250.00

Picea pungens 'Fat Albert' (Fat Albert Blue Spruce)	20-30'	(3)
--	---------------	------------

An outstanding blue spruce with a naturally straight leader and dense pyramidal form. A nice size for today's landscapes.

3-4'	\$ 125.00
4-5'	\$ 175.00
5-6'	\$ 250.00

Picea pungens glauca (Blue Colorado Spruce)	50-70'	(3)
--	---------------	------------

Blue-green foliage is quite striking. Pyramidal in shape.

Picea pungens 'Moerheimii' (Moerheim Spruce)	30'	(2)
---	------------	------------

An open grown form which retains bright blue color throughout the year. A nice specimen tree.

5-6'	\$ 225.00
6-7'	\$ 300.00
7-8'	\$ 400.00
8-9'	\$ 450.00

Picea pungens 'Montgomery' (Montgomery Spruce)	4'x 6'	(2)
---	---------------	------------

A dwarf bush forming a broad cone. The silver-blue needles are quite striking. A magnificent specimen. Slow growing.

3 gallon	\$ 90.00
----------	-------	----------

PINUS (Pine)

	<u>Height</u>	<u>Zone</u>
Pinus cembra (Swiss Stone)	30-40'	(4)

Slow-growing, medium-sized pine with a narrow pyramidal shape in its youth, gradually becoming rounded and more open as it matures. Soft, dark green to blue green needles.

4-5'	\$ 250.00
5-6'	\$ 250.00
6-7'	\$ 350.00

Pinus mugo 'Big Tuna'	10' x 6'	(2)
------------------------------	-----------------	------------

A rugged and hardy multi-stemmed conifer with dense dark green foliage. Wide spreading oval shrub or small tree. Buds are showy during cold winter months and stand out distinctly against dark green foliage.

10 gallon	\$ 300.00
5-6'	\$ 400.00

Pinus mugo 'Palouse'	6-8'	(2)
-----------------------------	-------------	------------

Palouse has longer needles with a natural more open look and has a consistent habit. Its growth is robust and grows into a bushy, rounded mound.

24-30"	\$ 140.00
30-36"	\$ 190.00

Pinus mugo 'Pumilio' (Dwarf Mugo)	5'	(2)
--	-----------	------------

A low-growing form, usually less than 5' tall and about twice that wide. It has dark green needles. Excellent foundation plant for sunny exposures. Has 10' spread.

****Limited availability - Please inquire for pricing.**

Pinus strobus (White)	50-80'	(3)
------------------------------	---------------	------------

One of the fastest growing pines. Large and massive with maturity. A good screen plant which is native and very hardy. Has 20-40' spread. **Native.**

4-5'	\$ 100.00
5-6'	\$ 140.00
6-7'	\$ 170.00
7-8'	\$ 250.00
8-9'	\$ 350.00

Pinus strobus 'Fastigata'	40-50'	(3)
----------------------------------	---------------	------------

Soft blue needles on this narrow, upright columnar form with ascending branches.

6-7'	\$ 225.00
7-8'	\$ 300.00
8-9'	\$ 375.00

PINUS (Pine) (Continued)

	<u>Height</u>	<u>Zone</u>
Pinus strobus 'Nana' (Dwarf White Pine)	16'	(3)

A dense, slow growing, globe-shaped bush. Suitable for rock garden use.

4-5'	\$ 400.00
5-6'	\$ 600.00
6-7'	\$ 750.00
7-8'	\$ 875.00
8-9'	\$ 1,000.00

Pinus strobus 'Pendula' (Weeping White Pine)	(3)
---	------------

An irregular growing, weeping pine. Branches sweep the ground. We specialize in large, full, specimen Weeping White Pines.

**These specimen plants are measured by spread.*

4-5'	\$ 150.00
5-6'	\$ 200.00
6-7'	\$ 300.00
7-8'	\$ 400.00
8-9'	\$ 500.00
9-10'	\$ 600.00
10-12'	\$ 800.00
12-14'	\$ 1,000.00

TAXUS (Yew)

Taxus cuspidata 'Capitata' (Upright Japanese Yew)	15-20'	(4)
--	---------------	------------

A broad, slow growing pyramidal form. Dark green needles which can be grown as a large shrub or small tree. **Best Seller.**

2-2 ½'	\$ 55.00
2 ½-3'	\$ 70.00
3-3 ½'	\$ 85.00
3 ½-4'	\$ 125.00
4-5'	\$ 165.00

Taxus x media 'Densifomis' (Densifomis Yew)	3-4'	(4)
--	-------------	------------

A dense, shrub-like form, usually twice as wide as tall. Bright green needles.

18-24"	\$ 45.00
2-2 ½'	\$ 55.00
2 ½-3'	\$ 70.00
3-3 ½'	\$ 85.00

4-5'	\$ 165.00
5-6'	\$ 225.00

TAXUS (Yew) (Continued)

Height Zone

Taxus x media 'Hicksii' (Hicks Yew) **15-20'** **(4)**

Columnar in form, 2 to 3 times as tall as wide. Can grow to 20' in 15-20 years. Red fruit. Has dark lustrous green needles.

2-2 ½'	\$ 42.00
2 ½-3'	\$ 54.00
3-3 ½'	\$ 65.00
3 ½-4'	\$ 75.00

Taxus x media 'Nigra' (Dark Spreading Yew) **3-4'** **(4)**

A slow-growing spreader; dark green foliage. Very dense.

3 ½-4'	\$ 125.00
4-5'	\$ 165.00
5-6'	\$ 225.00

Taxus x media 'Robusta ' (Robusta Yew) **6-8'** **(4)**

Dense, upright, dark green, 4-5 times taller than wide. May need protection from winter winds.

2 ½-3'	\$ 150.00
3-3 ½'	\$ 300.00
3 ½-4'	\$ 400.00

THUJA (Arborvitae)

Thuja occidentalis 'Boothii' (Globe Arborvitae) **6-10'** **(2)**

Dwarf, globular, dense shrub. Flat topped at maturity with bright green foliage. Slow-growing. A very nice accent plant or as a hedge.

2-2 ½'	\$ 45.00
2 ½-3'	\$ 60.00
3-4'	\$ 85.00

Thuja occidentalis 'Holmstrup' **10-15'** **(2)**

A compact upright evergreen with dense foliage in vertical sprays which remain a rich deep green color all year round. Slow growing.

Thuja occidentalis 'Nigra' (Dark American Arborvitae) **20-30'** **(3)**

Pyramidal form with dark green foliage. Remains dark throughout the winter. Shears well and is compact. Excellent tough hedge. **Best Seller. Native.**

Thuja occidentalis 'Smaragd' (Emerald Green Arborvitae) **10-15'** **(4)**

Slower growing, compact, with a pyramidal form. Holds color well through the winter. Emerald green color. Grows 3-5' wide.

THUJA (Arborvitae)

	<u>Height</u>	<u>Zone</u>
Thuja occidentalis 'Techny' (Mission Arborvitae)	15'	(3)
Slow-growing, compact, upright, conical-pyramidal, dwarf cultivar. It is noted for its rich dark green foliage that does not yellow in winter. Foliage is scale-like and appears in flat, fan-shaped clusters. Darker and denser than 'Nigra'.

Broad Leaved Evergreens

AZALEA

	<u>Height</u>	<u>Zone</u>
'Blaauw's Pink'	2-4'	(5)
This captivating, evergreen shrub is bathed in clusters of beautiful coral pink blooms with a darker pink blotch; an excellent choice to mass in groupings as an elegant focal point of the garden; must have rich acidic soil.		
'Delaware Valley White'	3-5'	(5)
Single pure white flowers on a low growing shrub. Bright green foliage. Probably the most bud-hardy of the white varieties. April-May flowering.		
'Girard's Fuchsia'	2-4'	(4)
Clusters of large single crimson flowers in early June. Evergreen. Compact growing habit with bright green foliage.		
'Girard's Pleasant White'	2-3'	(5)
Single white flowers 1-1/2" to 3" in diameter in spring. Versatile, low-growing evergreen shrub foliage.		
'Herbert'	2-4'	(4)
Low growing and compact, maturing as wide as high. Dark crimson-purple flowers mid May.		
'Hershey Red'	3-5'	(5)
Low growing, compact semi-evergreen shrub covered with brilliant red flower clusters in mid-spring. Small, dark green, glossy foliage provides a handsome backdrop for blooms.		
'Hino-Crimson'	2-4'	(5)
Dwarf, low growing, mounded and compact. Brilliant red flowers in mid May. Autumn foliage dark red. Best Seller.		
'Karen'	2-4'	(5)
Bright lavender-purple flowers in May. Compact.		
'Poukhanense'	3-5'	(4)
Rose to lilac colored flowers (in May). Also, very hardy. May. Compact shrub, with well rounded outline.		
'Stewartsonian'	3-5'	(5)
Vivid fire-red flowers mid May. Small, very dark green foliage turns distinctly wine-red in fall and is attractive all winter. An extremely hardy, low growing evergreen.		
'Traditional'	2-4'	(5)
Very heavy bloomer with medium pink flowers. Tiny evergreen foliage on a low spreading form.		

3 gallon	\$ 40.00
5 gallon	\$ 60.00
7 gallon	\$ 80.00

BUXUS (Boxwood)

	<u>Height</u>	<u>Zone</u>
Buxus microphylla var. korean 'Green Velvet'	3-4'	(5)
A broad-mounded, compact form with glossy, dark green leaves. Foliage retains its rich green color throughout the winter.		
Buxus microphylla japonica 'Winter Gem'	4-6'	(5)
Among the hardiest of the small-leaved boxwoods, the rich green foliage can acquire a golden bronze hue in cold winter zones.		
Buxus sempervirens 'Green Mountain'	2-3'	(4)
A slow-growing hybrid shrub with a naturally cone-shaped habit which makes it an excellent candidate for topiary forms, upright habit.		
3 gallon	\$	70.00
5 gallon	\$	90.00
7 gallon	\$	120.00

EUONYMUS

	<u>Height</u>	<u>Zone</u>
Euonymus fortunei 'Emerald Gaiety'	3-5'	(4)
Compact mound, spreading to 6'. Medium size green leaves with white border. Nice ground cover or low shrub. Will climb if planted next to a structure.		
Euonymus fortunei 'Emerald 'n Gold'	3-5'	(4)
Similar to 'Emerald Gaiety' with yellow margined leaves instead of white. Does best in full sun.		
2 gallon	\$	32.00
3 gallon	\$	40.00

Euonymus fortunei 'Sarcoxie'	4-6'	(4)
Upright growth that will spread with time. Solid green foliage throughout the year. White flowers in clusters. Sizing and pricing vary, Please inquire for pricing.		

ILEX CRENATA (Holly)

Ilex crenata 'Sky Pencil'	4-10'	(5)
Good all-female cultivar which needs a male pollinator in order to produce fruit. Maintains columnar shape without pruning.		
Ilex crenata 'Green Lustre'	3-4'	(4)
Good for hedges. Broad, rounded shape with a 6-8' spread. In the fall, produces 1/4" black fruit.		

3 Gal.	\$	50.00
5 & 7 Gallon material priced by variety		

ILEX GLABRA (Inkberry)

Ilex glabra (Inkberry) 6-8' (4)

Good native choice for the landscape. It can be kept shaped or let grow wild. Blackberries offer food for birds in winter. Good for hedging, moist acidic soils.

Native.

Ilex glabra 'Compacta' 3-4' (4)

An extremely versatile small evergreen shrub can be used in the garden or for low shrub can be used in the garden or for low hedges, massing and topiary, small oval leaves.

Ilex glabra 'Shamrock' 6-10' (5)

Dense compact, evergreen shrub with lustrous dark green, small, flat, lustrous leaves, 1 to 2 inches long, turning plum-purple in winter. Females produce small black berries in fall.

3 gallon\$ 45.00

5 gallon\$ 65.00

7 gallon\$ 100.00

ILEX MESERVEAE (Holly)

***Must have both male and female plants to produce berries.**

Ilex x meserveae 'Blue Girl' Holly 8' (4)

Small to medium size evergreen shrub with dark blue-green leathery foliage and blue purple stems. Prolific producer of bright red berries. Female.

Ilex x meserveae 'Blue Boy' Holly 8' (4)

Companion plant for Blue Girl if fruit set is desired. Excellent cold hardiness.

Ilex x meserveae 'Blue Princess' Holly 3675 8' (4)

Glossy deep blue-green foliage on blue stems. Female. Produces a large number of attractive red fruits.

Ilex x meserveae 'Blue Prince' Holly 3517 8' (4)

A hardy blue holly which can be sheared into any shape or height. Male. Companion plant for Blue Princess if fruit is desired.

Ilex x meserveae 'China Girl' Holly 4878 10' (4)

Has glossy green foliage and excellent cold and heat tolerance. When planted with China Boy, produces abundant bright red fruit which persists into the winter. Female.

Ilex x meserveae 'China Boy' Holly 4803 10' (4)

Beautiful shiny, green leaves. Hardy. Good foundation plant. Easily sheared. Prefers rich acidic soil. Male.

***Sizes and prices vary - Please Inquire.**

KALMIA (Mountain Laurel)

We offer a wide variety of hybrid Mountain Laurels, including a few dwarf varieties. Mountain Laurels prefer cool, well drained, acidic soils. Very useful as an under-story plant. Can be mixed with other broadleaf's, in masses, or in a shrub border. Kalmia's are native for this area. The following are some of the varieties we carry:

	<u>Height</u>	<u>Zone</u>
Kalmia latifolia 'Bullseye'	5-6'	(4)
Deep cinnamon-purple buds open to creamy white flowers having a broad purple band on the inside, mid June. Reddish bronze new growth. Compact.		
Kalmia latifolia 'Elf'	3-4'	(4)
Light pink buds open to near-white flowers with a narrow ring near the base of the corolla. Glossy foliage. Dwarf variety.		
Kalmia latifolia 'Kaleidoscope'	5'	(4)
Dark red buds open to cinnamon red band and white edges.		
Kalmia latifolia 'Little Linda'	3-4'	(4)
Intense dark red buds open to near white flowers that age to a rich pink. Miniature form. Slow growing. Perfect for small gardens!		
Kalmia latifolia 'Minuet'	2-3'	(4)
Light pink buds open to normal size white flowers with a broad, bright cinnamon-maroon band inside the corolla. Small, narrow glossy dark green foliage. Slower growing, dwarf.		
Kalmia latifolia 'Olympic Wedding'	4-6'	(4)
Lovely pink buds produce shell pink flowers with a broken dark red ring. A compact spring blooming shrub.		
Kalmia latifolia 'Olympic Fire'	4-5'	(4)
Large, deep red buds open to clear pink flowers. Good foliage color. Flowers open over a two-week period in late May and early June.		
Kalmia latifolia 'Ostbo Red'	4-5'	(4)
Buds are iridescent-red, the flowers deep pink. Leaves are undulated and twisted. Very lush, full, and vigorous.		
Kalmia latifolia 'Peppermint'	4-5'	(4)
Unique white flowers with zesty red stripes radiating out from the center.		
Kalmia latifolia 'Sarah'	3-4'	(4)
The closest to red of any Mountain Laurel both in bud and flower. Purplish red new stems. Flowers open over a two-week period in late May and early June.		

3 gallon\$ 60.00

5 gallon\$ 90.00

PIERIS (Andromeda)

	<u>Height</u>	<u>Zone</u>
Pieris japonica (Japanese Andromeda)	12'	(5)
Upright evergreen shrub with stiff, spreading branches. New growth is bronze-purple color. Attractive pendulous clusters of white flowers in early spring.		
Pieris japonica 'Mountain Fire'	8'	(5)
A bright fire red turning shiny green as it matures. Drooping clusters of white flowers in early spring. Compact habit. Provide rich soil and partial shade.		
Pieris japonica 'Dorothy Wyckoff '	6-8'	(5)
Pink flower buds open to light pink to white flowers. Red wine colored winter foliage. Compact growing.		
Pieris japonica 'Scarlet O'Hara'	6-8'	(5)
New growth reddish-bronze, large clusters of white flowers. Has a tall slender habit. Grows fast in moist rich organic soil. Partial shade.		
Pieris x 'Brouwer's Beauty'	6'	(5)
A japonica/floribunda hybrid. Flower buds are red for great winter interest. Buds open to white flowers on slightly arched panicles. Yellow-green new foliage deepens to dark green. Grows to 6' x 6'. Best Seller.

4-5'	\$ 170.00

DWARF VARIETIES

	2-3'	(4)
--	-------------	------------

Rhododendron x 'Purple Gem'

A dwarf, small-leaved, slow growing plant with a compact, mounding habit. Mahogany colored leaves in winter. Light purple flowers, mid to late April. Good for rock gardens and shrub borders.

15-18"	\$ 42.00
18-24"	\$ 45.00
2-2½'	\$ 65.00
2½-3'	\$ 75.00

Deciduous Trees

Measured in caliper. If multi-stemmed it will be priced by height. Caliper (c) = trunk diameter, 6" above the ground. Any tree that is over 4" caliper is measured at 12" above the ground.

ACER (Maple) ACER RUBRUM VARIETIES

	<u>Height</u>	<u>Zone</u>
Acer rubrum 'October Glory'	40-60'	(4)
Strong, overall shape. Brilliant crimson-red fall foliage. Foliage stays on the tree weeks after other maples have defoliated. Best Seller. Native.		
Acer rubrum 'Red Sunset'	40-60'	(3)
Glossy foliage, becoming very orange-red in fall and developing about 3 weeks earlier than 'October Glory'. A vigorous grower with a 35 to 40' spread at maturity. Native.		
Acer rubrum 'Scarlet Sentinel'	40'	(3)
Strong, upright branching, dark green leaves, larger in size than other red maples. Oval round habit. Has yellow/red fall color. Native.		
Acer rubrum 'Somerset'	25-30'	(3)
Somerset Red Maple is cross between October Glory and Autumn Flame, this new variety has long lasting deep red fall color. A seedless male variety that has proven itself to be adaptable to many types of soil conditions. Mature tree is upright and oval in form. Has yellow/red fall color. Native.		

ACER FREMANII VARIETIES

Acer x fremanii 'Autumn Fantasy'	40-50'	(4)
An impressive large shade tree valued for its showy red flowers along the bare branches in early spring and brilliant crimson red color in fall. A hybrid that combines the soil tolerance of silver maple with the colors of the red maple.		

ACER SACCHARUM VARIETIES

Acer saccharum (Sugar Maple)	50-85'	(3)
A stately, long-lived tree. Rich autumn foliage coloring. Will not tolerate road salt, therefore, not suitable for street tree plantings. Leaves have bright orange fall color. Native.		
Acer saccharum 'Green Mountain'	40-60'	(3)
Highly heat and wind tolerant, due to thick waxy coating on leaves. Excellent as a shade tree. Leaves have bright reddish-orange fall color. Native.		

ACER (Maple) (Continued)
ACER SACCHARUM VARIETIES

	Height	Zone
Acer saccharum 'Majesty'	50-60'	(3)
Majesty Sugar Maple is a dense deciduous tree with a shapely oval form. The lobed leaves turn an outstanding orange in the fall. Develops full branching at a younger age than other trees. Very vigorous maple.		

ALL MAPLES Unless Otherwise Priced:

1-1½"	\$ 160.00
1½-2"	\$ 220.00
2-2½"	\$ 300.00
2½-3"	\$ 390.00
3-3½"	\$ 480.00
3½-4"	\$ 650.00

4½-5"	\$ 975.00

ACER SPECIMEN VARIETIES

Acer ginnala 'Flame' (Amur Maple)	20'	(2)
Brilliant scarlet fall foliage, multi-stem or single trunks. Smooth, gray bark is attractive in winter. Dense, compact in habit. Heat and salt tolerant. Full sun, light shade.		

Acer griseum (Paperbark Maple)	20-30'	(4)
Small tree with beautiful cinnamon to reddish brown exfoliating bark that is striking against snow. Fall leaf color is a beautiful red. Great specimen tree.		

**Limited availability - Please inquire for pricing and availability.

ACER PALMATUM (Japanese Maple) VARIETIES

We offer a variety of large leaf palmatum types and also lace leaf (dissectum) types of Japanese Maples. Excellent choice as a specimen tree. Needs some protection in winter. Plant into moist, highly organic, well-drained soil.

Acer palmatum 'Bloodgood'	15-20'	(5)
Beautiful small tree with deep red palm shaped leaves. Leaves retain the red color throughout the season into fall. Most popular and hardy variety for central New Hampshire.		

Acer palmatum 'Fireglow'	15-20'	(5)
Amazing crimson fall color and summer foliage in rich burgundy-red; less dense canopy than other types; fairly sun tolerant; Japanese maples are the most coveted of all small landscape trees, it has almost the perfect shape, habit, and fall colors.		

ACER (Maple) (Continued)
ACER PALMATUM VARIETIES

	<u>Height</u>	<u>Zone</u>
Acer palmatum 'Oshio beni'	15-20'	(5)
This cultivar's name means 'Great Red Tide' and it delivers with striking red foliage emerging in spring, fading to a bronze green during summer, but then changing to a brilliant crimson in fall; perfect for borders or rock gardens.		
Acer palmatum dissectum 'Crimson Queen'	8-10'	(5)
A small specimen tree with gracefully cascading habit and finely cut red leaves. Foliage holds its beautiful crimson color throughout summer before dropping in fall. Low-branching, dwarf tree with delicate weeping effect. Well-suited for use as a small lawn tree or on patios and entryways.		
Acer palmatum dissectum 'Red Dragon'	8-10'	(5)
Red Dragon Japanese Maple has attractive burgundy foliage which emerges cherry red in spring. The deeply cut ferny palm-shaped leaves are ornamentally significant and turn an outstanding brick red in the fall.		
Acer palmatum 'Tobiosho'	15-20'	(5)
A broad, upright habit, supports the dense, green canopy from spring through summer. In fall, the foliage of gold appears first and changes to orange, then scarlet until all three colors are on display at once. Then go completely scarlet.		
**Limited availability - Please inquire for pricing and availability.		

AESCULUS (Horsechestnut)

Aesculus hippocastanum (Horsechestnut)	50-60'	(3)
A colorful hybrid tree, bearing large clusters of white flowers and dense dark green foliage, resistant to heat.		
**Limited availability, please inquire for pricing and availability.		

AMELANCHIER (Serviceberry)

Amelanchier laevis 'Allegheny' (Serviceberry)	15-25'	(4)
Tree form, more upright. White flowers in early spring. Emerging growth is purplish to bronze colored. Good orange-red fall color. Has black fruit in the fall.		
Amelanchier x grandiflora 'Autumn Brilliance'	20-25'	(4)
White flowers against light grey bark in spring. Fast growing and heavily branched. Edible berries. Foliage turns bright red in the fall.		
1-1½"	\$ 180.00	
1½-2"	\$ 225.00	

Amelanchier (Multi-stem)	15-20'	(4)
Amelanchier make excellent naturalizing plants. They are grown as trees and multi-stem shrubs. Its adaptability makes it easily usable.		
**Limited availability, please inquire for pricing & availability.		

BETULA (Birch)

Height Zone

Betula nigra (River Birch)

40-70' (4)

Handsome shaggy brown exfoliating bark. Prefers acidic, moist soils. Not affected by the bronze birch borer. **Native.**

Betula nigra 'Heritage'

40-60' (4)

The peeling bark exposes mottled patches of cream, orange, pink and tan color. Shows resistance to leaf spot. Has glossy green leaves. **Best Seller. Native.**

Betula nigra 'Summer Cascade'

15-20' (4)

A gracefully weeping form of this prize native birch valued for its stunning peeling bark; good fall color, does best in acidic soil. Has dark green foliage throughout the season. The pointy leaves turn an outstanding yellow in the fall. The peeling tan bark is extremely showy and adds significant winter interest.

Upright, wide with age. White flowers in April to May. Red foliage and berries in fall. **Native.**

Cornus kousa (Kousa Dogwood) 20-30' (5)

A handsome small specimen tree. Showy white bracts often persist for up to 6 weeks. Dark green leaves turn scarlet or purplish-red in fall. Does best in a relatively sunny location. More drought tolerant than *Cornus florida*.

Cornus kousa 'Milky Way' 20-25' (5)

Bushy habit with profusion of white flowers in early summer.

Cornus mas (Cornelian Cherry Dogwood) 20-25' (4)

Large multi-stemmed shrub with yellow flowers in early spring. Interesting exfoliating bark with glossy leaves. Great selection available.

1½-2"	\$ 225.00
2-2½"	\$ 300.00
2½-3"	\$ 375.00

CRATAEGUS (Hawthorn)**Crataegus laevigata 'Crimson Cloud' 20' (4)**

Princeton Nurseries selection has single red flower with white star center. Large red fruit. Resistant to leaf blight. Does well under city conditions.

Crataegus x mardenensis 'Toba' 20' (4)

Double, fragrant, white flowers turning to pink. Glossy foliage, red fruits and interesting twisted trunk make it a striking specimen. Berries attract birds.

Crataegus viridis 'Winter King' 25' (4)

Attractive tree with silvery bark that compliments the glossy green leaves well. Nice rounded habit with large red fruit that attract birds in winter.

1½-2"	\$ 225.00
2-2½"	\$ 300.00
2½-3"	\$ 390.00
3-3½"	\$ 450.00

FAGUS (Beech)

	<u>Height</u>	<u>Zone</u>
Fagus sylvatica 'Riversii' (River's Copper Beech)	60'	(4)
Dark purple leaves and a smooth gray bark set this specimen off. Not for the small yard, one of the best shade trees. Creates a very dense shade.		
Fagus sylvatica (European Beech)	60'	(4)
Oval to rounded growth habit with silvery bark which offsets the rich green foliage well. Give plenty of room to grow and you will be rewarded.		
Fagus sylvatica 'Pendula' (Weeping European Beech)	60'	(4)
Dark green glossy foliage, upright growing with long pendulous branches.		
Fagus sylvatica 'Purpurea' (Copper Beech)	60'	(5)
A very robust spreading, upright tree. Extraordinary tree has purple leaves.		
Fagus sylvatica 'Purpurea Pendula' (Weeping Purple Beech)	10-15'	(5)
Weeping form of the upright copper beech. Very attractive as a specimen.		
**Limited availability - Please inquire for pricing and availability.		

GINKGO

Ginkgo biloba (Maidenhair Tree)	50-60'	(4)
Upright when young, broadening with age. Brilliant yellow fall color. Small green fan-shaped foliage. Great city street tree.		
Ginkgo biloba 'Autumn Gold'	35-50'	(4)
Unique fan-shaped green foliage turns golden yellow in fall. Its symmetrical upright branching form becomes broad with age. Non-fruiting.		

1-1½"	\$ 225.00
1½-2"	\$ 300.00

GLEDITSIA (Honeylocust)

Gleditsia triacanthos inermis 'Shademaster'	45'	(4)
Rapidly growing trees have an upright vase shape. Green leaves are compound and provide light and airy shade. Very adaptable to urban conditions. Native.		
Gleditsia triacanthos inermis 'Skyline'	45'	(4)
Pyramidal form with ascending branches. Has compact dark green leaves. Bright golden yellow fall color. Native.		
Gleditsia triacanthos inermis 'Sunburst'	1313	40' (4)
Brilliant yellow new growth slowly changing to brilliant green. Develops a well formed, symmetrical top with spreading habit. Native.

|--|---------------|-------------|
| Gymnocladus dioicus (Kentucky Coffee Tree) | 60' | (4) |
| Compound leaves and arching branches make this a graceful looking tree. Tolerant of heat, cold, and drought. Good choice for city conditions. Native. | | |
| **Limited availability, please inquire for pricing & availability. | | |

MAACKIA

- | | | |
|---|------------|------------|
| Maackia amurensis 'Starburst' | 25' | (4) |
| Dark green foliage crowns a well branched, uniform canopy, accented by white flower clusters that appear in mid-summer. | | |

1-1½"	\$ 150.00
1½-2"	\$ 220.00
2-2½"	\$ 290.00
2½-3"	\$ 360.00

MAGNOLIA

- | | | |
|--|---------------|------------|
| Magnolia liliiflora 'Jane' | 10-12' | (5) |
| A rounded plant with beautiful flowers which appear in late spring before the leaves. Flowers are tulip shaped with red/purple on the outside and white on the inside. Excellent specimen plant. | | |

- | | | |
|---|---------------|------------|
| Magnolia soulangiana (Saucer Magnolia) | 20-25' | (5) |
| A small multi-stemmed specimen tree, usually as broad as tall. White flowering, with tinges of purple-pink which bloom in May. A beautiful tree year-round. | | |

- | | | |
|---|---------------|------------|
| Magnolia stellata (Star Magnolia) | 15-20' | (3) |
| Hardest magnolia. White star shaped and fragrant flowers prior to leaves. Blooms when very young. Nice specimen. More shrub like than treelike. | | |
| Best Seller. | | |

- | | | |
|--|---------------|------------|
| Magnolia stellata 'Royal Star' | 10-15' | (4) |
| Early bloomer with large, fragrant, white double flowers appearing before the foliage emerges in spring. Useful in areas where late freezes can occur. Open-branched, multi-trunked large shrub or small tree. | | |

- | | | |
|---|------------|------------|
| Magnolia x loebneri 'Dr. Merrill' | 20' | (3) |
| Free flowering magnolia with large 3" white flowers. Strong growing small tree or large shrub. Good specimen plant. Very hardy. | | |

- | | | |
|--|---------------|------------|
| Magnolia x. loebneri 'Leonard Messel' | 10-20' | (4) |
| Compact cultivar with a multi-stemmed habit and beautiful two-toned flowers at an early age. The strap-like petals are similar to star magnolia, white on the inside and purplish-pink on the outside. | | |

4-5'	\$ 140.00
5-6'	\$ 175.00
6-7'	\$ 220.00

MALUS (Crabapple)

Flowering crabapple trees are gaining importance in a wide range of landscape uses. They are selected for varying characteristics: form, flowers, fruit, and texture. Of the hundreds of crabapple cultivars, we are growing what we feel are the finest for our rigorous climate. We hope that the accompanying list will help you choose that special tree for that special place.

<u>VARIETY</u>	<u>FLOWER</u>	<u>FRUIT</u>	<u>HT/SP</u>	<u>ZONE</u>	<u>DESCRIPTION</u>
'Adams'	Pink	Red	20/20	4	resistant to scab and apple rust
'Bechtel' *Best Seller	Dbl/pink	Green	20/18	4	showy flowers-strong grower
'Brandywine'	Dbl/rose	Yellow	20/20	4	fragrant flowers upright green spreading
'Candied Apple'	Red/pink	Red	15/15	4	dark green foliage with red tinge semi-weeping growth habit
'Centurion'	Rose	Red	20/15	4	narrow upright-purple foliage turns to green in summer 5/8" fruit
'David'	White	Red	12/12	4	fruit persist into fall
'Donald Wyman'	White	Red	20/25	4	glossy green foliage all summer
'Japanese'	White/pink	Red	18/25	4	disease resistant
'Mary Potter'	White	Red	15/15	4	pink buds open to 1"
'Pink Princess'	Rose pink	Maroon	20/20	4	maroon foliage
'Pink Spires'	Lavender	Purple	25/15	4	dense upright oval/ red symmetrical form
'Prairiefire'	Pink/red	Purple	20/20	4	new growth is purple/red turning to reddish-green
'Profusion'	Pink	Maroon	20/20	4	maroon foliage
'Red Jade'	Pink/white	Red	15/15	4	graceful weeper, best used as specimen
'Red Jewel'	White	Red	15/20	4	green foliage

MALUS (Crabapple) (Continued)

<u>VARIETY</u>	<u>FLOWER</u>	<u>FRUIT</u>	<u>HT/SP</u>	<u>ZONE</u>	<u>DESCRIPTION</u>

PHELLODENDRON (Cork Tree)

Height Zone

Phellodendron amurense (Amur Cork Tree) **40'** **(4)**

Boldly branched, broad spreading tree. Corky bark leads to the common name. Fast growing and hardy.

3-3½"	\$ 350.00
3½-4"	\$ 375.00
4-4½"	\$ 450.00
4½-5"	\$ 525.00

PRUNUS (Cherry)

Prunus sargentii (Sargent Cherry) **20-30'** **(4)**

Hardest of all the flowering cherry trees. Bright, single pink blossoms in early spring. New growth a reddish-bronze, turning a bronze-green and eventually a brilliant red. Best of the larger cherries for general landscape use.

Prunus serrulata 'Kwanzan' (Kwanzan Cherry) **25'** **(5)**

Upright vase shape tree. Double pink flowers in large clusters. Good for street planting.

Prunus subhirtella 'Pendula' (Weeping Japanese Cherry) **12-15'** **(5)**

This is the most popular of the weeping cherries. Small double pink flowers, drooping growth, heavy blooming.

Prunus x 'Snow Fountain' (Weeping Cherry) **6-12'** **(5)**

Weeping cherry with snow white flowers on bare stems. Foliage is dark green turning gold/orange in the fall.

****Limited availability - Please inquire for pricing and availability.**

Prunus virginiana (Canada Red Cherry) **25'** **(2)**

Fast-growing selection with rounded crown. New growth is green, turning maroon in late spring and remaining all summer. Edible red fruit. Very hardy.

Best Seller.

2-2½"	\$ 275.00
2½-3"	\$ 310.00
3-3½"	\$ 400.00

PYRUS (Pear)

	<u>Height</u>	<u>Zone</u>
Pyrus calleryana 'Aristocrat'	3193	25-35' (4)
Pyramidal in outline. Horizontal branching, lustrous dark green leaves with wavy edge. Yellow to red fall color. Maintains a central leader well. About the same heat and cold tolerance as 'Bradford'. Nice white flowers.		
Pyrus calleryana 'Chanticleer'		25-35' (4)
Narrower than 'Bradford'. Good reddish-purple fall color. Nice tree where horizontal space is limited. Abundant white flowers in spring.		
Pyrus calleryana 'New Bradford'		30-40' (4)
Glossy green foliage turning red to deep crimson in fall. Masses of white flowers in spring. First tree to flower, last to shed leaves. Resistant to insect and disease damage.		
Pyrus calleryana 'Redspire'		35-45' (4)
This new variety from Princeton Nurseries forms a shapely, narrow-oval crown. Larger flowers and flower clusters than 'Bradford'. The glossy foliage turns shades of crimson and purple in the fall. Best Seller.		
Pyrus calleryana 'Stonehill'		35-40' (4)
A tight, narrow, pyramidal, thornless ornamental pear tree with clusters of white flowers.		

1-1½"	\$ 175.00
1½-2"	\$ 225.00
2-2½"	\$ 280.00
2½-3"	\$ 335.00
3-3½"	\$ 375.00

QUERCUS (Oak)

Quercus palustris (Pin Oak)	60-70' (4)
Distinctive shade tree. Fast growing. Strong pyramidal habit, broad with age. Deeply cut leaves. Variable fall color from scarlet to brick red. Native.	
Quercus palustris 'Pingreen Green Pillar'	50-60' (4)
An upright, very narrow, columnar tree with nearly vertical branches and a strong central leader. Dark green foliage turns deep red to scarlet red in fall.	
Quercus rubra (Red Oak)	75' (4)
Valuable fast-growing tree for shade or street use. New growth is reddish, turning lustrous green in summer and brick red in fall. Native.	

1-1½"	\$ 190.00
1½-2"	\$ 225.00
2-2½"	\$ 300.00
2½-3"	\$ 375.00

SALIX (Willow)

Height **Zone**

Salix alba 'Niobe' (Golden Weeping Willow) **40-50' (4)**
 Yellow-colored branches and bark. Rapid-growing. Does well in wet soil.

6-8'	\$ 100.00
8-10'	\$ 125.00

SYRINGA (Lilac)

Syringa reticulata 'Ivory Silk' **15'-30' (3)**
 Blooming in early summer. This lilac tree boasts fragrant showy blossoms that are creamy white arranged in dense, terminal clusters. Blooms later than most other species of lilac in early June.

1-1½"	\$ 180.00
1½-2"	\$ 225.00
2-2½"	\$ 300.00
2½-3"	\$ 375.00
3-3½"	\$ 450.00
3½-4"	\$ 500.00

TILIA (Linden)

Tilia cordata 'Littleleaf' **60-70' (4)**
 Excellent shade tree for lawns, large areas or street plantings. May be pruned into a hedge. Grows rapidly into a narrow oval form.

Tilia cordata 'Greenspire' **2086 40' (4)**
 Small leathery foliage and spicy-fragrant blossoms. Grows rapidly into a narrow oval form. Very straight trunk even on young trees. Commonly used as a street tree. **Best Seller.**

Tilia cordata x mongolica 'Harvest Gold' **40' (3)**
 Deep green, glossy foliage through the summer months. Bright golden yellow autumn leaves. Upright form as a young tree, becoming rounded with age.

1-1½"	\$ 180.00
1½-2"	\$ 225.00
2-2½"	\$ 300.00
2½-3"	\$ 375.00
3-3½"	\$ 450.00
3½-4"	\$ 525.00
4-4½"	\$ 600.00

ULMUS (Elm)

	<u>Height</u>	<u>Zone</u>
Ulmus japonica x wilsoniana 'Morton' (Accolade)	50-60'	(4)

Noted for its vigorous growth, glossy ovate-elliptic, dark green leaves have toothed margins and asymmetrical bases give way to good yellow fall color. Graceful vase shape characterizes this outstanding hybrid.

Ulmus morton 'Triumph Elm'	50'	(4)
-----------------------------------	------------	------------

Large, lustrous, dark green summer foliage gives way to yellow fall color. Resistant to Dutch elm disease, elm yellows and to elm leaf beetle. It is easily transplanted, quick to establish, and adaptable to most soil types. Good street tree planting.

Ulmus 'Patriot'	50'	(5)
------------------------	------------	------------

This variety features stiffly ascending branches resulting in a narrower vase shaped crown than most elm cultivars. Foliage is very dark green turning yellow in the fall.

1-1½"	\$ 180.00
1½-2"	\$ 225.00
2-2½"	\$ 300.00
2½-3"	\$ 375.00
3-3½"	\$ 450.00
3½-4"	\$ 500.00

ZELKOVA

Zelkova serrata 'Green Vase'	60'	(4)
-------------------------------------	------------	------------

Good replacement for American Elm because of similar vase shaped habit and serrated leaf edges. A nice vigorous tree with yellow to bronze fall color. Attractive bark offers year-round interest.

****Limited availability - Please inquire for pricing and availability.**

Deciduous Shrubs

AMELANCHIER

Height Zone

Amelanchier canadensis (Shadblow Serviceberry)

6-20' (3)

Upright, tight multi-stemmed shrub, attractive white flowers in early spring. Light gray bark is prominent in winter. Does well in moist areas, full sun or part shade.

Native.

18-24"	\$ 30.00
2-3'	\$ 45.00

AZALEA

Azalea 'Exbury' Assorted colors

8-12' (4)

Brilliant large and showy flowers, 2-4" across, appearing before leaves. Flowers varieties in red, orange, white, yellow or pink. Among the hardiest azaleas. Not all colors available in all sizes.

Lights Azalea Hybrids Series

Azalea x 'Arneson Gem'

4-6' (3)

A compact, bushy deciduous shrub with oblong leaves and red buds opening to large, yellow-orange flowers in late spring and early summer.

Azalea x 'Candy Lights'

4-5' (4)

Sweet and rich fragrant pale pink with yellow streaks. Flowers appear in clusters of 8 to 10 mid to late spring.

Azalea x 'Mandarin Lights'

4-5' (3)

Extremely hardy selection which provides a massive display of bright, mandarin orange blooms before the foliage emerges. Small mounding form is excellent for massing in shrub borders.

Azalea x 'White Lights'

4-6' (3)

Has thick rounded crown smothered by large pink-tinged, fragrant white trumpet-like flowers above rich green leaves in mid to late spring. Foliage turns red in fall. Full shade, partial shade, filtered sun, partial sun.

***Sizes and prices vary with each variety.**

BUDDLEIA (Butterfly Bush)

Buddleia davidii 'Black Knight' (Butterfly Bush)

6-8' (5)

Fast-growing shrub, fragrant deep purple flowers, borne in 4-9" panicles, July through frost. Said to be the hardiest of the cultivars. May be cut back in the spring. Flowers appear on new wood. Attracts butterflies.

BUDDLEIA (Butterfly Bush) (Continued)

	<u>Height</u>	<u>Zone</u>
Buddleia davidii 'Lo & Behold Blue Chip'	2'-3'	(5)
Miniature butterfly bush under 3' tall. Blue flowers bloom in mid-summer and continue thru fall without any deadheading or pruning.		
Buddleia davidii 'Peacock'	4-5'	(5)
Rich pinkish-lavender blooms measure 12-14" on compact plant. Ideal for containers or garden beds. Flowering from mid-summer through fall.		
Buddleia davidii 'Summer Skies'	4-6'	(5)
Starting in late spring fragrant violet-blue flowers contrast with white and yellow variegated foliage.		
Buddleia davidii 'White Profusion'	6-8'	(5)
Large white flower clusters. Buddleia prefers well-drained soil, full sun. Dead heading flowers before they set seed will encourage new flowers to form.		
Buddleia x weyeriana 'Honeycomb'	6-8'	(5)
Large creamy yellow flowers continue to bloom much later into the season. The foliage is an attractive silvery-green and has a nice compact habit.		

3 Gallon.....\$ 45.00

CHAENOMELES

Chaenomeles japonica (Flowering Quince)	3-4'	(4)
Orange-red flowers in late April. Fruit is 1-2" and becomes greenish-yellow in October. Branches are thorny and plant makes a good low hedge. Full sun.		
Chaenomeles speciosa 'Cameo'	1-2'	(5)
Romantic double, peach colored flowers in May. Bright green shiny foliage with a compact nature. Full Sun.		
Chaenomeles speciosa 'Double take Pink Storm'	3-4'	(5)
Large, fragrant, bright pink Camellia-like flowers! This deer resistant shrub is drought tolerant, produces no fruit and is thorn-free.		
Chaenomeles speciose 'Orange Storm'	3-4'	(5)
Big, richly colored, double orange flowers provide a stunning early spring display. Thornless and deer resistant, it does not produce fruit.		
Chaenomeles speciosa 'Texas Scarlet'	3'	(4)
Low-growing with abundant, showy, watermelon-red flowers. Very compact and almost thornless.		
Chaenomeles x superba 'Crimson & Gold'	1-2'	(5)
Large, velvety crimson red flowers have bright gold stamens - very showy. The low, spreading habit fits easily into home gardens.		

3 Gallon.....\$ 40.00

CLETHRA

	<u>Height</u>	<u>Zone</u>
Clethra alnifolia 'Anne Bidwell'	4-6'	(3)
Spikes of fragrant white flowers in late summer. Upright growth habit, moist acidic soil. Plant in sun or semi-shade.		
Clethra alnifolia 'Hummingbird'	2-4'	(3)
Compact growing plant. Wonderfully fragrant white flowers in mid-summer. Good foundation plant. Native.		
Clethra alnifolia 'Pink Spires'	4-6'	(3)
Fairly large pink fragrant flowers. Tolerant of shade and moist areas. Native.		
Clethra alnifolia 'Ruby Spice'	4-5'	(3)
Beautiful, rose colored, fragrant, bottlebrush shaped flowers adorn this plant. Flowers July through August. Native.		
Clethra alnifolia 'Summersweet'	3-8'	(3)
Small white fragrant flowers in mid-summer. Withstands salty, seashore locations, oval dense, round-topped habit good for damp, shady areas. Native.		
3 Gallon.....\$ 45.00		
3-4' \$ 60.00		

CORNUS (Dogwood)

An excellent landscape choice in all four seasons. Flowers are showy in spring. Leaves turn red-purple in fall. Glossy red fruits attract winter songbirds. Likes partial shade; moist, acid, well-drained soil.

Cornus alba 'Bailhalo Ivory Halo'	5-6'	(3)
A compact, variegated leaf with red branches that is attractive in the winter months. Compact.		
Cornus amomum 'Silky Dogwood'	6-8'	(3)
Clusters of small white flowers appear in late spring or early summer. The berries turn from white to blue/lavender as they ripen. Also known as "swamp" dogwood.		
Cornus baileyi (Bailey's Red Twig)	8-10'	(4)
Bright red stems give year round color. Prune old branches out as new stems have best red color. Green leaves turn purple red in fall. Does well in poor soils, especially sandy soil. A good plant for naturalized situations. Small white flowers in May and June. Native.		
Cornus sericea 'Cardinal'	6-8'	(3)
Stems turn from coral to deep cherry red. White flowers are flat topped cymes.		

CORNUS (Dogwood) (Continued)**Height Zone****Cornus sericea 'Flaviramea' (Yellow Twig)****6-8' (3)**

Bright yellow branches make this shrub distinct in the landscape, especially noticeable in winter. Large sizes available.

3 Gallon.....\$ 36.00

4-5'\$ 45.00

5-6'\$ 78.00

6-7'\$ 100.00

COTINUS (Smokebush)**Cotinus coggygia 'Young Lady'****4-6' (4)**

Yellow flowers in the spring. Upright, spreading, multi-stemmed shrub. Foliage turns dark purple in the Fall.

Cotinus coggygia 'Royal Purple'**10-15' (5)**

Keeps its rich, dark purple foliage from spring to late fall. Bloom is rich reddish color. Prefers sunny locations.

2-3'\$ 45.00

3-4'\$ 55.00

4-5'\$ 70.00

5-6'\$ 80.00

COTONEASTER**Cotoneaster adpressus praecox****3' (4)**

A dwarf, close-growing compact plant with rigid branching. Attractive red berries with glossy green leaves. Approximately 3' high by 6' spread.

Cotoneaster dammeri 'Coral Beauty'**1' x 6' (5)**

A dense, fast growing compact habit grows to 1' tall but spreads to 6' wide. White flowers with purple anthers in May. Glossy deep green leaves turn reddish-bronze to purple tones in winter.

3 Gallon.....\$ 40.00

5 Gallon.....\$ 50.00

DAPHNE**Daphne x burkwoodii 'Carol Mackie'****4' (4)**

Compact rounded shrub with cream colored edges on green leaves. Pinkish white flowers have a wonderfully sweet fragrance in mid-May. Prefers moist, organic enriched, well drained soil in light shade.

****Limited availability - Please inquire for pricing and availability.**

ENKIANTHUS

	<u>Height</u>	<u>Zone</u>
Enkianthus campanulatus 'Redvein'	8-10'	(4)
Narrow upright shrub with layered habit. Bright green foliage turns brilliant yellow orange in fall. Pendulous clusters of creamy yellow/orange flowers in May-June.		
Enkianthus campanulatus 'Jan Iseli Pink'	6'	(5)
Clusters of many pink, bell-shaped flowers that dangle from slender branches. Green leaves take on vibrant color in every shade from yellow to red.		
Enkianthus campanulatus 'Showy Lantern'	6-10'	(5)
Slightly narrower form with large pink to cherry red flowers and dark green leaves which turn quality scarlet red in fall shade from yellow to red.		
3 Gallon	\$ 50.00	5 Gallon
		\$ 60.00

FORSYTHIA

Forsythia x intermedia	8-10'	(4)
An upright grower, vibrant yellow flower, early in spring. Flowers are more open and better distributed along stem than other varieties. Full sun maximizes color.		
Forsythia x intermedia 'Arnold Dwarf'	2-3'	(5)
Vigorous, compact, low-spreading, woody shrub. Golden yellow flowers appear in early spring prior to foliage emerging. Leaves turn a non-descript yellow in fall.		
Forsythia x intermedia 'Lynwood Gold'	8'	(4)
Brilliant yellow flowers in early spring. Has nice upright habit that makes a good hedge. Unique purple fall foliage.		
Forsythia x 'New Hampshire Gold'	4-5'	(3)
Has bright colorful yellow spring flowers appearing before the foliage. Green summer foliage takes on purplish fall color.		
3 Gallon	\$ 42.00	5 Gallon
		\$ 50.00

FOTHERGILLA

Fothergilla gardenii (Dwarf)	2-4'	(4)
White, fragrant, 1-2" bottle brush shaped flowers, emerge in April and May. Prefers moist, organic, acidic, well drained soils. Will grow in full sun to part shade. Fall color is a wonderful mix of yellow, orange and red.		
Fothergilla major 'Mount Airy'	5-6'	(4)
Deciduous shrub with deep blue-green leaves has attractive fall color. Honey-scented, brush-like flowers appear before the leaves. Beautiful addition to shrub borders or for background in semi-shaded border.		
3 Gallon	\$ 50.00	7 Gallon
		\$ 85.00

HAMAMELIS (Witchhazel)

	<u>Height</u>	<u>Zone</u>
Hamamelis virginana	6-10'	(4)
A shrub with a round habit. The fragrant flowers are yellow, orange or reddish in January and February before the leaves emerge. Bright yellow fall color. Native.		
Hamamelis x intermedia 'Girard's Purple'	10-12'	(5)
Dark purplish red ribbon like flowers. Blooming mid-late winter.		

****Please inquire for availability and pricing.**

HIBISCUS (Rose of Sharon)

Hibiscus syriacus 'Ardens Blue'	8-12'	(5)
Doubling blue flowers in late summer. Prefers full sun to partial shade.		
Hibiscus syriacus 'Blue Chiffon'	8-12'	(5)
Large, single blue flowers with a lacy center which last from late summer to fall.		
Hibiscus syriacus 'Blue Satin'	6-8'	(5)
Five-petaled deep royal blue to violet-blue flowers with dark reddish-purple throats.		
Hibiscus syriacus 'Blush Satin'	6-8'	(5)
Large single soft pink flowers w/prominent eye. Long blooming.		
Hibiscus syriacus 'Diana'	8-12'	(5)
Bears huge, pure white flowers all summer. Prefers full sun to partial shade.		
Hibiscus syriacus 'Lavender Chiffon'	8-12'	(5)
Large single disc lavender flowers with lacy center.		
Hibiscus syriacus 'Lucy'	6-8'	(5)
Bears double red-pink flowers in mid-summer and continues into mid-fall.		
Hibiscus syriacus 'Red Heart'	8-12'	(5)
Single white flowers with a red eye. Prefers full sun to partial shade.		
Hibiscus syriacus 'Sugar Tip'	6-8'	(5)
Double pink flowers with brightly variegated creamy-white and bluish-green foliage.		
Hibiscus syriacus 'Violet Satin'	6-8'	(5)
Large single deep violet flowers. Long blooming.		
Hibiscus syriacus 'White Chiffon'	6-8'	(5)
Semi double white flowers w/lacy center. Late summer bloomer.		

3 Gallon.....	\$ 50.00
7 Gallon.....	\$ 75.00

HYDRANGEA

- Hydrangea anomala petiolaris (Climbing Hydrangea)** **Vine (4)**
 Superb flowering vine. Has beautiful foliage and fragrant 6-10" clusters of creamy-white flowers in late June and July. Tolerates a variety of soils and shade to full sun locations.
- 3 Gallon \$ 65.00 5 Gallon \$ 90.00
- Hydrangea arborescens 'Annabelle'** **4-5' (4)**
 Large, 5-7". Double white flowers in June. Does best in partial shade. **Native.**
- Hydrangea arborescens 'Incrediball'** **4-5' (3)**
 The densely-packed flowers emerge lime green, but mature to pure white. Flowers bloom in early June for up to two months. Has much thicker upright stems that do not flop.
- Hydrangea macrophylla 'Blushing Bride'** **3-4' (4)**
 6" semi-double florets of pure white flowers which turn light pink/blush color. The first flush of flowers arises in early summer, then repeat in mid to late summer.
- Hydrangea macrophylla 'Cityline Mars'** **1-3' (4)**
 Large showy blooms of magenta and white variegated flowers. Dwarf.
- Hydrangea macrophylla 'Cityline Paris'** **1-3' (4)**
 Large red or violet blue flowers. Dwarf.
- Hydrangea macrophylla 'Cityline Venice'** **1-3' (4)**
 Hot pink flowers. Dwarf.
- Hydrangea macrophylla 'Endless Summer'** **4-5' (4)**
 First ever blooming hydrangea that blooms on both old and new wood from June to frost. Big showy blooms are pink in alkaline soil and blue in acidic soil. Does best in moist, well drained, shady to partially-shady areas. **Best Seller.**
- Hydrangea macrophylla 'LA Dreamin'** **4-6' (5)**
 Serene blast of colorful blooms—in shades of blue, purple and pink .
- Hydrangea macrophylla 'Nikko Blue'** **4-6' (5)**
 Big leaf hydrangea with large blue flowers.
- Hydrangea macrophylla 'Twist-n-shout'** **3-5' (4)**
 Pink or periwinkle flowers bloom from early summer all the way through fall.
- Hydrangea paniculata 'Grandiflora' (Pee Gee) Shrub Form** **6-8' (4)**
 Enormous trusses of white flowers in August which turn rose/blush in early fall. Sun or partial shade, a vigorous fast grower.
- Hydrangea paniculata 'Limelight'** **6-8' (4)**
 Bright lime-green flowers in August turning bright pink later.

***Sizes and prices vary - Please Inquire.**

HYDRANGEA (Continued)
HYDRANGEA TREE FORM VARIETIES

	Height	Zone
Hydrangea paniculata 'Grandiflora' (Pee Gee) Tree Form	8-10'	(4)
Pee Gee Hydrangea trained into a tree form.		
Hydrangea paniculata 'Quickfire' Tree Form	6-8'	(4)
White flowers in August then blooms change from white to a rich pinkish-red		
Hydrangea paniculata 'Tardiva' Tree Form	6-8'	(4)
Bold conical white flowers with shell pink overtones at the ends of the branches from mid summer to early fall.		
4-5'	\$ 125.00	5-6'\$ 150.00

ILEX (Winterberry)

Ilex verticillata 'Common' (Winterberry)	6-10'	(3)
Dark green leaves vary from flat to shiny on the upper surface of serrated leaf margins. Oval to rounded form, requires a male plant to bear fruit.		
Ilex verticillata 'Jim Dandy'	3-6'	(3)
A slow-growing, early-flowering dwarf male clone, this cultivar is useful as a pollinator for early-flowering female clones such as 'Red Sprite'.		
Ilex verticillata 'Maryland Beauty'	5-7'	(3)
A female cultivar which needs a male pollinator to produce the attractive red berries which are the signature of the winterberries.		
Ilex verticillata 'Red Sprite'	3-5'	(4)
Early blooms produces numerous, very large red fruits which persist well in the winter. Use 'Jim Dandy' to pollinate.		
Ilex verticillata 'Southern Gentlemen'	6-10'	(3)
This plant is a late-blooming male pollinator for 'Winter Red', 'Winter Gold', 'Sparkleberry' and other later blooming female clones.		
Ilex verticillata 'Sparkleberry'	6-10'	(4)
The main attraction is the abundant red fruit that are medium-size and persist well, often until spring. Use 'Apollo' to pollinate.		
Ilex verticillata 'Berry Heavy'	6-8'	(3)
Copious amounts of red berries appearing in fall and winter. Plant a male selection nearby to improve fruiting.		
Ilex verticillata 'Winter Red'	6-9'	(3)
Winter Red' is a female clone which needs a male pollinator to produce the attractive red berries which are the signature of the winterberries.		
3 Gallon	\$ 45.00	5 Gallon \$ 60.00

KOLKWITZIA (Beauty Bush)

Height Zone

Kolkwitzia amabilis (Beauty Bush) 6-8' (4)

Upright, arching habit. Bell-shaped pink flowers in May-June. Flowers on old wood. Prune out old wood to prevent leggy plants. Full sun for best flowering.

3 Gallon.....\$ 40.00

LIGUSTRUM (Privet)

Ligustrum amurense (Amur River Privet) 12-15' (3)

Fast-growing, dense, upright, multi-stemmed shrub with weak pyramidal outline. White panicle flowers in June. Blackberry-like fruit in September. Full sun to half shade. Great for sheared hedges. Plants bare rooted from our field.

Ligustrum vulgare (European Privet) 12-15' (3)

Panicles of white to cream flowers in April. Fruit begins green and ripens to purple to black color and persists into winter.

3 Gallon.....\$ 36.00

PHILADELPHUS (Mockorange)

Philadelphus 'Buckleys Quill' 4-10' (5)

Double white fragrant flowers in late May. Semi-dwarf with deep green foliage with upright branches.

Philadelphus x virginialis 'Minnesota Snowflake' 6' (3)

A well branched shrub, retaining foliage better than most mockoranges. Double white fragrant flowers.

****Limited availability - Please inquire for pricing and availability.**

PHYSOCARPUS (Ninebark)

Physocarpus opulifolius 'Center Glow' 6-8' (3)

Small pinkish-white, five-petaled flowers that bloom in dense, flat, rounded, spirea-like clusters in late spring. The bark peels in strips to reveal several layers of reddish to light brown inner bark

Physocarpus opulifolius 'Little Devil' 3-4' (3)

Small pink to white blooms May -June. Dar red/maroon foliage through fall. Rounded compact form.

Physocarpus opulifolius 'Summer Wine' 4-6' (3)

Small pinkish-white, five-petaled flowers with deeply cut, wine-red foliage and its dense, free-branching, mounded growth habit. Exfoliating bark which peels in strips to reveal several layers of reddish to light brown inner bark.

PHYSOCARPUS (Ninebark) (Continued)

	<u>Height</u>	<u>Zone</u>
Physocarpus x. opulifolius 'Tiny Gold'	3-4'	(3)
Clusters of white flowers appear along the stems in early summer. The brilliant new growth makes an interesting contrast with the exfoliating, cinnamon-colored bark.		
3 Gallon.....		\$ 45.00
5 Gallon.....		\$ 60.00
4-5'		\$ 90.00

POTENTILLA

	<u>Height</u>	<u>Zone</u>
Potentilla fruticosa 'Abbotswood'	2-3'	(2)
Dark bluish-green foliage with a dense spreading habit. Large white flowers produced over a long period of time. Medium height. Considered to be one of the best white potentilla. Native.		
Potentilla fruticosa 'Gold Finger'	3'	(2)
A versatile small shrub with its yellow buttercup-like flowers. Fine-textured green foliage on a mounded form. Use as a colorful accent in shrub borders Native.		
Potentilla fruticosa 'Coronation Triumph'	3-4'	(2)
Early and profuse bloom of bright yellow flowers in late spring. Bloom continues with regularity throughout summer to early fall.		
Potentilla fruticosa 'McKay's White'	2'	(2)
White to creamy saucer-shaped flowers bloom in profusion well into fall. Dark-green foliage stays clean throughout the season. Withstands heat stress. A compact ball-shaped form.		
Potentilla fruticosa 'Pink Beauty'	2'	(2)
Clear pink flowers all summer long on compact plant. Best in part shade. A versatile shrub for borders, along walks, low hedges and as a mass or foundation planting. Native.		
Potentilla fruticosa 'Primrose Beauty'	2-3'	(2)
Attractive silvery-gray foliage. Pale yellow flowers. Prolific bloomer. Considered the best hybrid. Spreading habit of 3'. Native.		
Potentilla fruticosa 'Tangerine'	2-3'	(2)
Bright yellow flowers with orange tinge in partial shade. Mounded form with gray-green leaves. Spreading habit of 4'. Native.		
Potentilla fruticosa 'Mango Tango'	2'	(2)
Rich orange-red radiates from the center of deep yellow flowers creating a striking bicolor effect, backed by fine green foliage.		
3 Gallon		\$ 36.00
5 Gallon		\$ 50.00

PRUNUS (Cherry/Almond)

	<u>Height</u>	<u>Zone</u>
Prunus x cistena (Purple-Leaf Sand Cherry)	7-10'	(2)
Intense reddish-purple foliage throughout the summer. Fragrant pink-white flower in early May.		
Prunus glandulosa 'Rosea' (Pink Flowering Almond)	5-6'	(4)
Wide spreading multi-stemmed shrub with attractive small pink double flowers in May. Summer foliage is light green. Fruit is dark pink/red. Upright grower.		

****Limited availability - Please inquire for pricing and availability.**

ROSA (Rose)

***Selection of roses that is available within the industry continues to grow as breeders take advantage of the many different planting situations within a garden that can be used to the roses full advantage. The selection that we offer can be considered more than fairly comprehensive and can be relied upon to satisfy the most difficult of requirements that a gardener in NH could have to satisfy.*

Rosa rugosa	6'	(3)
It's valued by rose breeders for its considerable resistance to the diseases rose rust and rose black spot. It is also extremely tolerant of seaside. Needing little maintenance, it is suitable for planting in large numbers; its salt-tolerance makes it useful for planting beside roads. We have them in pink, yellow and red.		

Carpet Roses 3-4' (5)

From soft red buds, an abundance of semi-double peachy amber flowers, fading to seashell pink, envelope the plant. Blossoms are fragrant - a first for this series of easy care groundcover roses! Features higher disease resistance than the original Flower Carpet® roses, along with excellent tolerance of heat and humidity. Varieties: **red, coral, yellow, white, pink and amber.**

Knock Out Roses 3-4' (5)

The Knock Out® Family of Roses are easy to grow and do not require special care. They are the most disease resistant rose on the market. They have stunning flower power with a generous bloom cycle (about every 5-6 weeks) that will continue until the first hard frost. It's a compact, tidy shrub rose and resistant to black-spot and is drought tolerant all of the Knock Out® Roses are self-cleaning so there is no need to deadhead. Plant them individually among shrubs, annuals and perennials in mixed beds and borders. Plant them in large groups to create a colorful hedge. Plant them along a foundation to provide a bright border. Full or partial sun - full sun for the best blooms.

***Sizes and prices vary with each variety.**

SPIRAEA

	<u>Height</u>	<u>Zone</u>
Spiraea japonica 'Little Princess'	2-3'	(4)
Dwarf compact specimen shrub covered with pink flowers in mid summer. Full sun.		
Spiraea japonica 'Neon Flash'	2-3'	(4)
If you ever needed to plant a spiraea that has the growth characteristic of Anthony Waterer but you only have half the space, then this is for you! Flowers are an intense carmine red that do not fade even in bright light.		
Spiraea japonica 'Magic Carpet'	2-3'	(4)
Clusters of small bright pink flowers on a compact spreading shrub. Fall foliage russet with redish/orange tinge.		
Spiraea japonica 'Shirobana'	2-4'	(4)
Flowers a mix of deep rose, pink, and white throughout the summer.		
Spiraea nipponica 'Snowmound'	3-5'	(3)
Small dark blue/green foliage. White flowers in June. Dense, neat outline.		
Spiraea x bumalda 'Anthony Waterer'	3-4'	(4)
New growth is reddish-purple and pink flowers are borne in June. A good plant for covering foundations. Prefers full sun and will tolerate most soil except wet bog-like conditions.		
Spiraea x bumalda 'Goldflame'	2-3'	(4)
New foliage is mottled red, copper and orange which repeats in fall. Summer foliage is greenish-yellow. Flowers pink in summer. Nice mounded shape spreading 3-4'.		
Spiraea x bumalda 'Goldmound'	2-3'	(4)
Tiny pink flowers in flat-topped clusters cover the foliage in late spring to mid-summer. Dense, upright, mounded shrub.		
Spiraea x 'Renaissance'	5-8'	(3)
An improvement of "bridal wreath" spiraea. Tiny white flowers appear in late April to May in umbellate clusters. Fall color is usually undistinguished, but attractive purplish hues may sometimes develop. Shape after flowering.		
3 Gallon		\$ 40.00
5 Gallon		\$ 50.00

SYRINGA (Lilac)

Syringa prestoniae 'James MacFarlane'	10'	(3)
Blooms two weeks later than Syringa vulgaris with single pink flowers. Attractive, low-growing form, wide upright. One of the few lilacs to tolerate moist soil. Developed at UNH.		
Syringa vulgaris (Common Lilac)	8-15'	(3)
Lilac-colored flowers are extremely fragrant. Prefers neutral soils supplemented with organic matter. Blooms best in full sun. New Hampshire state flower.		

SYRINGA (Lilac) (Continued)

<u>Variety</u>	<u>Flower Color</u>	<u>Height</u>	<u>Zone</u>
'Alba'	White	10-12'	(3)
'Belle de Nancy'	Double Pink	8-10'	(3)

SYRINGA (Lilac) (Continued)
DWARF LILAC VARIETIES

	<u>Height</u>	<u>Zone</u>
Syringa meyeri 'Palibin' (Dwarf Korean Lilac)	6'	(4)
Compact and wide-growing. Vibrant reddish pink buds opening to white/pink flowers with small dark green foliage. Requires very little maintenance. Resistant to powdery mildew.		
Syringa patula 'Miss Kim' (Miss Kim Lilac)	8'	(3)
A slow-growing, hardy variety. Fragrant with purple buds opening to icy-blue flowers. Outstanding dark plum fall foliage.		

18-24"	\$ 40.00
2-2½'	\$ 50.00
2½-3'	\$ 60.00
3-3½'	\$ 75.00
3½-4'	\$ 100.00

VACCINIUM (Blueberry)

Best grown in acidic (pH of 4.8 to 5.2), organically rich, medium to wet, well-drained soils in full sun to part shade. Shallow, fibrous roots need constant moisture and good drainage. Plants appreciate good organic mulch. Although blueberries are self-fertile, cross-pollination produces the best fruit crop (larger berries and larger yields). Therefore it is best to plant more than one variety that will bloom at the same time. Aluminum sulfate aids in lowering PH and therefore increases fruit production.

Vaccinium angustifolium- Lowbush Blueberry **18-20" (3)**
 Great low growing native shrub. Sweet blueberries. Foliage has red fall color. Plant in sunny acidic soil.

Vaccinium corymbosum - Highbush Blueberry **6-12' (4)**
 Upright, multi-stemmed shrub. White to pink flowers, blue/green foliage. throughout the summer. Blue/blackberries in July - August.

2 Gallon	\$ 34.00
3 Gallon	\$ 40.00
5 Gallon	\$ 60.00

VIBURNUM

- | | <u>Height</u> | <u>Zone</u> |
|--|---------------|-------------|
| Viburnum carlesii 'Korean Spice' | 3-4' | (4) |
| Dark foliage. Perfect 2-3" white flower in May. Outstanding fragrance and wine-red fall foliage color. Prefers well-drained slightly acidic soil. Full sun or part shade. | | |
| 2-3' | \$ 45.00 | |
| 3-4' | \$ 60.00 | |
| 4-5' | \$ 75.00 | |
| 5-6' | \$ 100.00 | |
| Viburnum dentatum 'Arrowwood' | 6-10' | (2) |
| A large upright native shrub, dense and compact. White flowers in June followed by blue-black berries in September - October. Red-purple fall foliage. Native. | | |
| Viburnum dentatum 'Autumn Jazz' | 8-10' | (3) |
| Vase shaped with a graceful look. This shrub can have a spread of 7-8' and has lovely creamy white flowers. Attractive orange-yellow blended fall foliage. Native. | | |
| Viburnum dentatum 'Blue Muffin' | 4-6' | (4) |
| White flowers in the spring and blue fruit in the fall. This shrub is nice for small spaces. It has a wonderful burgundy-purple fall color. Native. | | |
| Viburnum dentatum 'Erie' | 6-8' | (4) |
| White flowers in the spring with red fruit. Great yellow, orange, red fall color. Disease resistant. Good border or specimen shrub. Native. | | |
| Viburnum lantana 'Mohican' | 6-8' | (3) |
| Thick dark green leaves. Flowers bloom early May. Compact growth habit and resistant to bacterial leaf spot. | | |
| Viburnum lentago 'Nannyberry' | 15-18' | (2) |
| Upright growth. Ideal for naturalized planting areas. Tolerates some shade and likes moist soils. Birds attracted to green to black fruit. | | |
| Viburnum plicatum tomentosum 'Doublefile' | 8-10' | (5) |
| Horizontal habit with tiered branching. 4" white flowers in May. Reddish-purple fall color. Pink, rose then bluish fruit at maturity suitable for preserves. Interesting as small specimen tree, or grouped for screening. | | |
| Viburnum plicatum f. tomentosum 'Mariesii' | 10-12' | (5) |
| Non-fragrant white flowers in lacecap-like clusters bloom in April or May. Doublefile viburnum with layered horizontal branching. | | |
| Viburnum plicatum f. tomentosum 'Summer Snowflake' | 5-8' | (5) |
| White lacecap-like flowers bloom in spring (late April-May), but continue to bloom sporadically through summer. | | |
| Viburnum prunifolium 'Blackhaw' | 12-15' | (3) |
| Large, upright, multi-stemmed, shrub with an irregular crown, but it also may be grown as a small, single trunk tree. Non-fragrant white flowers. Blue/black berries. | | |

VIBURNUM (Continued)

	<u>Height</u>	<u>Zone</u>
Viburnum trilobum 'American Cranberry'	10'	(2)
White flowers, May-June, scarlet fruit is excellent for birds. Medium growth rate. Good for jellies and preserves. Has red-purple fall color. Native.		
Viburnum trilobum 'Compactum'	6'	(2)
White lacecap flowers on a compact, upright form. Deep burgundy foliage and large bright red berries. Excellent fall color.		
Viburnum x burkwoodii 'Burkwood'	8-10'	(4)
Upright, multi-stemmed shrub. Pink bud to white flower with a spicy smell. Red to black fruit in July - August.		

***Prices vary upon availability and sizing**

WEIGELA

Weigela florida 'French Lace'	4-6'	(5)
Deep pink flowers in the spring. Rounded compact growth. Variegated leaves.		
Weigela florida 'Midnight Wine'	1-2'	(4)
A dwarf variety with rosy pink flowers and burgundy leaves. Attracts butterflies and hummingbirds.		
Weigela florida 'Minuet'	2-3'	(4)
Foliage is green with a hint of purple, great multi-colored flowers. Dwarf.		
Weigela florida 'My Monet'	2-3'	(4)
Pink spring flowers and green and white variegated foliage all season long.		
Weigela florida 'Pink Princess'	5-6'	(4)
Pink flowers with loose open plant habit.		
Weigela florida 'Variegata'	5'	(5)
Variegated leaves, compact habit. Flowers are deep rose edged with pale yellow to creamy white. Blooms late May.		
Weigela florida 'White Knight'	5-6'	(4)
White flowers with pink tips on an upright plant. Strong repeat bloomer.		
Weigela florida 'Wine and Roses'	4-5'	(4)
Dark burgundy leaves and hot pink flowers. Staying compact and round in shape.		

2 Gallon	\$ 34.00
3 Gallon	\$ 45.00
3-4'	\$ 60.00
4-5'	\$ 75.00
5-6'	\$ 90.00

Vines and Ground Covers

Height Zone

CAMPSIS

Campsis radicans (Trumpet Creeper) (4)

Coral-red trumpet shaped flowers in clusters, all summer. Heavy, fast-growing clinging vine. Best to prune back to a few buds in the spring.

CLEMATIS

Clematis 'Belle of Working' 6-8' (4)

Clematis Belle of working is a double flowered variety with a good flowering period may/June & September.

Clematis 'Blue Light' 6-8' (4)

Features large, dahlia-like, double, pale blue to blue-violet flowers (5-6" diameter). Blooms from late spring through much of the summer.

Clematis 'Blue Moon' 6-8' (4)

Features blue purple flowers. Blooms from late spring through much of the summer.

Clematis 'Dutchess Edinburgh' 6-8' (4)

Duchess of Edinburgh has fully double 5" flowers are produced on this compact vine in early and late summer.

Clematis 'Little Duckling' 3-6' (4)

Blooms top to bottom with more pink flowers than most full size clematis. Early summer blossoms are double; later are single.

Clematis 'Marie Louise Jensen' 6-8' (4)

Features showy fragrant bright violet colored flowers over bright green foliage. Blooms from May through October. This plant produces 6" violet blue double flowers.

Clematis 'Starburst' 6-9' (4)

Clematis Starburst has creamy centers transitioning through pink all the way to magenta at the margins. The center is yellow.

2 gallon\$ 32.00

A note about Clematis:

Attention to detail is important. Provide a warm top and cool bottom, by planting near a companion plant or stone. If you create an environment where the base of the plant is shaded and the top foliage is allowed to grow into a sunny area, you should expect success. Plant in a light, fertile, well drained soil. Make sure the plant receives support in order to grow.

EUONYMUS

Height Zone

Euonymus fortunei 'Coloratus' (4)

A rapid growing ground cover with deep, glossy green foliage, turning purple in winter months.

HEDERA

Hedera helix (English Ivy) (4)

Evergreen. Dark green leaves with slight red tone. Hardy form. Sun or shade. A suitable replacement for difficult to maintain lawn areas. Can also be trained to grow on buildings and walls.

JEEPERS CREEPERS

Jeepers Creepers are durable perennial plants. Their low spreading habit makes them ideal for use as a groundcover, lawn substitute, path way or edging plant. With colorful flowers or leaves, these plants offer unique design possibilities.

See Jeeperscreepersusa.com for more information and selection.

LONICERA

Lonicera hirsuta x sempervirens (Dropmore Honeysuckle) (3)

A tall-growing climber from 10- 20 feet and higher. Bright orange-scarlet tubular flowers from June to September.

PACHYSANDRA

Pachysandra terminalis (Japanese Pachysandra or Spurge) (3)

An evergreen ground cover, 6" high, prefers moist, shaded areas. Attractive white flowers.

PARTHENOCISSUS

Parthenocissus quinquefolia (Virginia Creeper, Woodbine) (3)

Fast growing vine, often climbing six to ten feet in one season. The five-pointed leaf is bronze in new growth. Deep green in summer, purplish-red in autumn. Bluish-blackberry is noticeable after the leaves have fallen.

Parthenocissus tricuspidata (Japanese Creeper, Boston Ivy) (4)

Lustrous trilobed leaves, 4-8" wide. Valuable for covering walls, trellises, etc. Can be used the same way as quinquefolia.

VINCA

Vinca minor (Myrtle or Periwinkle) (3)

A low-growing evergreen ground cover with trailing habit. Does best in well-drained soils. It has dainty blue flowers. Well-suited for areas too shaded for lawns.

FRUIT TREES

* All varieties of apple trees require some cross-pollination for fruit set. Even though some varieties are listed as self-fruitful, they will set fruit more heavily and more regularly if they are cross-pollinated. Choose two plants which have the same bloom season or the next one. Apple trees are offered in 3 distinct sizes. Dwarf varieties get to be 5 to 8 feet tall, semi-dwarf varieties are usually 12 to 16 feet tall, and standard varieties get between 20 and 30 feet tall. The size variations allow for apple trees to be planted in small spaces and easier harvesting.

<u>Variety</u>	<u>Fruit</u>	<u>Bloomer</u>	<u>Zone</u>	<u>Description</u>
Apple				
'Braeburn'	Red	Mid-season	4	Semi-sweet.
'Cortland'	Red	Mid-season	4	Good for cooking/eating.
'Empire'	Red	Mid-season	4	Sweet.
'Fireside'	Red/Yellow	Mid-season	4	Big, sweet and firm
'Golden Delicious'	Yellow	Late	5	Crisp and sweet.
'Granny Smith'	Green	Late	6	Good for cooking/eating.
'Haralson'	Red	Late	3	Tart and juicy.
'Harlared'	Red	Late	3	Excellent for fresh eating.
'Honeycrisp'	Red/Yellow	Mid-season	3	Crisp and juicy.
'Honeygold'	Yellow	Mid-season	4	Good for cooking/eating.
'Johnathan'	Red	Mid-season	3	Good for cooking, juicy.
'Liberty'	Red	Mid-season	4	A good dessert apple.
'Macoun'	Red	Late	4	Red striped.
'McIntosh'	Red	Mid-season	4	Sweet.
'Red Delicious'	Red	Late	3	Good for cider.
'Royal'	Red	Late	5	Good for cider.

Semi dwarf root stalk

5 gallon \$ 45.00 each

FRUIT TREES (Continued)

Variety	Fruit	Pollinator	Zone	Description
Cherry				
'Bing'	Maroon	Needed	5	Dark red, firm, crisp fruit, good for canning.
'Black Tartarian'	Black	Needed	5	Medium to large purplish-black sweet fruit.
'Northstar'	Red	Needed	4	Juicy, tart, fruit w/ a small stone. Dwarf.
'Stella'	Red/black	Self-pollinator	5	Large dark red, firm, sweet fruit.
Peach				
'Elberta'	Yellow	Self-pollinator	5	Very large freestone fruit, good for canning.
'McKay'	Yellow	Self-pollinator	5	Very large firm with red bushed skin.
'Red Haven'	Yellow	Self-pollinator	4	Bright red medium to large sweet fruit.
'Reliance'	Red	Self-pollinator	5	Medium to large, honey sweet. Very winter hardy.
Pear				
'Bartlett'	Yellow	Self-pollinator	5	Large juicy golden yellow fruit. Good for canning.
'BOSC'	Brown/yellow	Needed	5	Juicy flesh w/rich, slightly acidic flavor that gives it a sweet-spicy taste.
'Clapps Favorite'	Yellow	Needed	5	Large early season fruit, sweet.
'Comice'	light green w/rosy blush	Self-pollinator	4	Sweet and juicy, firm flavor.
'Kieffer'	Yellow	Self-pollinator	4	Crisp, juicy, white flesh with a coarse texture.
'Luscious'	Yellow	Needed	5	Med-small bright yellow fruit juicy & sweet.
'Red Bartlett'	Red	Self-pollinator	5	Medium in size, sweet, luscious flavor.
'Summer Crisp'	Yellow	Needed	5	Fruit is sweet and crisp.

FRUIT TREES (Continued)

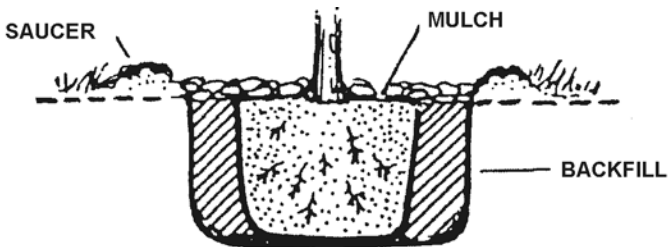

<u>Variety</u>	<u>Fruit</u>	<u>Pollinator</u>	<u>Zone</u>	<u>Description</u>
Plum				
'Burbank'	Crimson Red	Needed	5	Purplish-red plum with a sweet yellow pulp
'Italian Prune'	Deep Purple	Self-pollinator	5	Sweet. Good for desserts
'Mount Royal'	Blue/Black	Needed	5	Sweet and juicy. Very hardy
'Stanley'	Blue	Needed	5	Large dark blue fruit. Good for canning/dried.
'Superior'	Red	Needed	4	Large dark red fruit, sweet and juicy
'Toka'	Red	Needed	3	Mid sized fruit, rich and spicy flavor

5 gallon \$ 45.00 each

Caring for Your Plants

The following is a guide only. When you have selected a suitable site:

- 1.) Dig a hole 1' wider than the ball or container and as deep. (It is important that the plant be planted at or slightly above the surrounding ground level.)
- 2.) Carefully remove from the root ball any inorganic material that will not decay within 3 months. Example: plastic bags, plastic burlap or containers. If in container "fluff" the roots. Do not remove entire wire basket from B&B, doing so can ruin the integrity of the root ball and void any warranty. After the tree is set in the hole and backfilled by 1/3, you may remove the top 1/3 of the wire basket and cut the rope and pull the burlap away from the trunk.
- 3.) Site the plant to your satisfaction. Place the root ball in the center of the hole. Use planting mix of organic compost, peat moss, or loam/compost mix. As the hole is backfilled, it is important to pack firmly the backfill material in 4" layers. This prevents any air pockets.
- 4.) After the plant is properly backfilled, a shallow saucer should be prepared by mounding up the soil, 1' out from the base of the plant (2-3' for large trees). This saucer is important as your first few watering's should saturate the entire area in and around your newly installed plant.

- 5.) Water is vital. Fill the saucer 3 times immediately after planting, once daily for one week and then weekly for the first summer. During hot weather, it is advisable to spray the plant with water from a hose to help cut down moisture loss. *See next page for additional information.
- 6.) Most plants have natural mulch where they grew in the wild. With this in mind, the addition of 4" of mulch will tend to keep the roots cool and retard evaporation of soil moisture. Suitable mulch would be pine bark. Peat moss is not a good mulch. Taper the mulch away from the crown of the plant.
- 7.) After one month, we recommend fertilizing with a mild liquid fertilizer that is formulated for newly installed plants. It is very important not to over fertilize. Read and follow the directions on the fertilizer package.
- 8.) If you have planted a large tree, it may be appropriate to stake this tree.
- 9.) Once established (after one year) most plants will benefit from an annual application of a good slow release nursery fertilizer in early spring or summer. Follow the directions on the fertilizer package. **Do not fertilizer in the fall.**

How much and how often should I water?

Probably more than you have been.

Proper watering is critical to your plant's health. Regular watering will also help to ensure maximum flowering and proper growth. The following instructions are just guidelines. No watering schedule is a substitute for observing the condition of your newly planted plants every day. The concept behind this watering schedule is to ensure deep root watering.

One of the biggest mistakes people make is insufficient watering of their new plants. Most people think that because they have an irrigation system for their lawn that also sprays their plant beds, their trees and shrubs are receiving enough water. Lawn watering systems are programmed to run one to three times a day for a short period of time, usually between 10 to 20 minutes. This soaks only the first few inches of soil, which is fine for lawns because of their shallow root systems.

Trees and shrubs need to develop deep reaching roots to allow them to withstand drought, extreme cold, and for trees - wind. Shallow watering encourages shallow weak roots. Trees and shrubs require slow, deep watering, reaching down well past the bottom of the root ball. They do best on drip irrigation system or soaker hose. If that is not an option, place your hose at the base of the plant and turn on the water just enough to start it dripping, and just leave it for several hours. Depending on how hot the weather is, and how much rain we've gotten, this may need to be done as often as daily, or as little as twice a week. To check the soil, dig down 2–4" just outside the root mass of the plant and water only if the soil feels dry to the touch. Feeling the soil for moisture content is the BEST method for gauging dryness. Only sampling can tell you when the soil is adequately moist, too dry, or too wet.

As tree and shrub nurserymen we use the old *adage* "1 inch of rain a week will keep our established plants happy." If we do not get help from Mother Nature in the form of rain, supplemental watering is critical for your plants success.

Deep watering should continue until the plants go dormant in the fall. This will ensure that they are adequately hydrated until spring. This is especially true for all evergreen plant material.

Landscaping Products and Services

FERTILIZERS

We have on hand many different blends to suit your lawn, garden and plant needs. Make sure to read the directions before applying any fertilizer to your garden. When you first plant use roots stimulate fertilizer. In the spring of the next year, use granular fertilizer.

BIO-PLEX PRODUCTS

Bio-Plex Organics it is a concentrated liquid complex of many "naturally occurring" organic compounds; including but not limited to - cold processed seaweed extract, humic substances, numerous plant vitamins, enzymes, amino acids, nutrient chelators, root specific growth stimulators, chelated iron & micronutrients - and a new "state of the art" organo-silicone based tissue and soil penetrate.

ESPOMA – ORGANIC FERTILIZER

Complex blends of long lasting natural organic ingredients enhanced with Bio-tone® beneficial microbes to provide your garden with the balanced meal it deserves. Approved for organic gardening with pure, premium products - no fillers or sludge's. Hard to find for the avid & environmentally conscious gardener. Espoma provides the most extensive selection of natural organic products that work in harmony with nature to grow beautiful lawns & gardens, preserve natural resources, and make a safer world for future generations.

COAST OF MAINE PRODUCTS

Fertilizers:

Eggmoggin Blend – organic garden food \$ 10.00 / 2.5 lb. container

Eggmoggin Blend is an organic (OMRI listed), all-purpose, granular garden food. Made of 100% pasteurized hen manure, this 4-2-2 fertilizer has no odor and is safe and easy-to-use. This product feeds naturally without burning. It releases its nutrients gently and as needed by both plants and lawns. It also provides an excellent source of organic matter for healthy, productive soil.

Lobster & Kelp – organic garden food \$ 12.00 / 4 lb. bag

Made with lobster, crab, fish and kelp meal plus worm castings and other important natural ingredients, this exceptional fertilizer will super charge the biological activity of our compost, giving vegetable gardens a high calorie energy boost. It is also high in calcium (6%) to help boost plant vigor and immunity.

COAST OF MAINE PRODUCTS (Continued)

Wiscasset Blend Earthworm Castings **\$ 10.00 / 8 qt. bag**

Gardeners have long known that there's magic in worm castings. Use to enrich potting soil with active biology and plant ready minerals or top-dress your indoor container plants to give them a boost.

Potting Soil:

Bar Harbor Blend Premium Potting Soil **\$ 9.00 / 1 cubic foot bag**

Bar Harbor Blend is our organically approved, all-purpose potting soil. It is a rich, dark brown and full bodied, designed for re-potting house plants, planting hanging baskets, window boxes and all containers. Bar Harbor Blend is made with lobster and aspen bark compost, long staple horticultural grade sphagnum peat moss and perlite. Like all compost-based soils, this too requires less watering.

Cobscook Blend Gardening Soil **\$ 9.00 / 1 cubic foot bag**

Cobscook Blend is made with a blend of fully matured salmon and blueberry compost (both locally recycled byproducts), mixed with aged bark, long staple sphagnum peat moss and horticultural limestone. It is a richly textured all-purpose gardening soil. Because it is made with compost, it gives you the benefit of requiring less frequent watering and feeding.

Monhegan Blend Black Earth **\$ 7.00 / 1 cubic foot bag**

Monhegan Blend Black Earth is an exceptionally rich blend of naturally composted barks and fine sand. The result is a light, easy-to-use, all-purpose organic soil that is ideal for top dressing lawns or as a general soil amendment.

Penobscot Blend Compost & Peat **\$ 9.00 / 1 cubic foot bag**

Penobscot Blend is made with fully matured salmon, blueberry and mussel compost (2/3) and sphagnum moss peat (1/3). The shell fragments help aerate and add texture to your soil, which helps improve root growth. A blend of compost and peat, it is ideal for planting annuals, perennials, shrubs and trees or conditioning gardens, beds and borders.

Quoddy Blend Lobster Compost **\$ 9.00 / 1 cubic foot bag**

The original "seafood" compost. Made with chitin-rich lobster blended with peat, humus and compost. The result is a dark-brown, complex soil that drains well and is ideal for conditioning beds and borders. Great for vegetable gardens. One of our best sellers!

Schoodic Blend Cow Manure Compost **\$ 7.00 / 1 cubic foot bag**

Schoodic Blend is a dark, rich soil made from carefully composted cow manure and peat humus.

HYDROSEEDING

Hydroseeding is the process of spraying grass seed, wood fiber fertilizer, lime, and water over the soil in order to establishment a lawn. We use top quality seed or wildflower mix, Hydrofine lime fertilizer, Conwed fiber mulch, and hydrogel for reduced water needs. Our Finn Hydroseeder has a 1,700 gallon tank which will cover approximately 25,000 square feet per tank.

Hydroseeding is the most economical choice for establishing the desired turf without the expense, time, material costs or installation demands of sodding or traditional hand-seeding methods. The lawn quality that hydroseeding affords is much healthier, greener and longer lasting. This is because the root establishment is deeper into the soil and avoids the shock of being transplanted into foreign soils. Hydroseeding provides a thicker, more uniform lawn that essentially consists of a mat of interlocking fibers creating the ideal growing environment that doesn't have the threat of seams showing as with sod or sparse, patchy areas with hand-seeding.

CleanLine™ is a complete series of commercial grade aluminum landscape edgings designed to function in professional landscapes. CleanLine is engineered to maximize design sustainability by withstanding the demands of professional lawn maintenance and high-volume pedestrian traffic. Exceptional flexibility allows graceful curves and angles to be readily formed.

Aluminum Edging

1/8" X 4" X 16'

Each piece comes with 5 stakes
Additional Stakes are \$ 2.00 each

1-10 pieces \$ 36.80 per piece
11-24 pieces \$ 33.60 per piece

Black Edging

1/8" X 4" X 16'

Each piece comes with 5 stakes
Additional Stakes are \$ 2.00 each

1-10 pieces \$ 40.00 per piece
11-24 pieces \$ 38.40 per piece

Wholesale pricing available please call

Fabriscape fabrics are used for weed control, filter/drain fabric, soil separator, patio/paver under liner, pond underlayment, road separator, frost protection, etc. The wide variety of weed control fabrics allow air, water, and fertilizers to pass through to plant roots while preventing weeds from growing. All of the fabrics are very easy to cut and install quickly. When covered from sunlight, the fabrics are permanent and tear resistant.

Fabriscape

3' x 25' Rolls \$ 10.00 / roll
3' x 50' Rolls \$ 20.00 / roll
3' x 100' Rolls \$ 35.00 / roll

Anchoring pins are also available at an additional cost.

Wholesale sizes also available in rolls up to 15' wide.

Please inquire for details.

FALL TRANSPLANTING HAZARDS

The following trees and shrubs should be dug only in the spring. However, plant material that has been dug and is containerized or balled and burlapped may be planted throughout the season. We strive to have a wide variety of plant material throughout the season that is properly dug and hardened off in the spring.

Acer rubrum	Liriodendron tulipifera	Quercus palustris
Betula varieties	Populus nigra	Salix varieties
Crataegus varieties	Prunus varieties	Zelkova serrata
Koelreuteria paniculata	Pyrus varieties

Betula papyrifera Paper Birch

****Please see Page 70 for information & disclaimer.***

Many customers have inquired this past season looking for the beautiful white paper birch, the New Hampshire state tree. Unfortunately, we've stopped growing it in our fields and selling it in our garden center as it has succumbed to an insect. Over the past ten plus years the bronze birch borer (*Agrilus anxius*), has attacked all paper birches in our area, leaving the paper birch to a very short lifespan. The paper birch loves cool, moist soil and simply cannot tolerate drought stress of any kind, or even a hot root zone, which happens when planted in the landscape in full sun conditions. Once this birch gets stressed, it weakens, and the bronze birch borer insect attacks from the root zone and then "bores" it's way to the top, leaving a highway of tunnels that destroys the vascular system of the tree.

With this said, our goal is for all of our customers to be successful with our products in the landscape and have currently discontinued the sale of paper birch. While we will continue to trial varieties that are more insect resistant, we promote the vigor and insect resistance of the Heritage River Birch (*Betula nigra* 'Heritage'). This tree is currently not affected by the bronze birch borer, and has a stronger habit versus snow, ice & wind that causes damage and bending of the traditional paper birch.

NOTES
